Plans For Statewide 'Alert' Accent Lack Of CD Here

Tait Says County Can Do Little To Participate, Fears City Action On Funds May Stall Siren

Given added weight by a background of international tension, three new developments today served to underline the sad state of Pickaway County's Civil Defense organization.

While CD planning here continues to limp along with sporadic efforts, an uncertain financial status and lukewarm public interest, CD Director Bernard Tait announced:

1. A state-wide practice "alert" has been set by the Columbus Filter Center for Saturday.

2. The same day had previously been selected for a "Pickaway County Civil Defense Day" observance.

3. Orders for a big air raid siren may have to be cancelled unless the City of Circleville goes through with its promise of an additional $500 for CD purposes in 1955.

* * *

TAIT explained Thursday morning that news of the practice "alert" was brought to him by T-Sgt. James W. Tenney, of the filter center, after Tait had already made arrangements for the CD Day observance. Tait indicated an effort would be made to coordinate the two plans.

He said local air raid wardens next Saturday would pass out CD literature at Court and Main to stress the need of a more active CD organization in this district. However, it appeared that would be the extent of the CD observance.

Simultaneously, Tait admitted the district is no better prepared for a practice "alert" now than it was during the last statewide test. Only a small portion of the local public was reminded of the last drill when it was discovered, too late, that warning whistles on local plants could not be heard all over the community.

There was no official reason for the short notice given on the forthcoming "alert". Tait agreed, nevertheless, that the 48-hour advance notice would mean little to Pickaway County.

He agreed also that any advance notice of an actual war emergency would probably be much less than 48 hours.

Main reason for the week-end test is to try out new equipment at the Columbus Filter Center. But Pickaway County has no ground observer post to participate in the drill, and it appeared nothing along this line—in organized fashion—will even be attempted for the Saturday workout.

In the event of bad weather Saturday, the statewide test will be held Sunday.

* * *

TAIT'S concern over $500 which the city apparently appropriated for CD purposes is twofold. He said his organization needs all the financial support it can get, and that the reported city allocation is needed especially to pay for a large siren ordered for this area.

If any step is made to withdraw the $500 counted upon from the city, Tait warns, it may force him to cancel the order for the apparatus, delivery of which is expected here in about three weeks. Chairman George Crites of city council's finance committee has held up the city CD allocation, claiming it was approved only because the city thought the county would match it this year.

To the contrary, Chairman Bill Goode of the county commission "won't give us a dime this year," Tait said.

Tait has voiced confidence the siren can be placed atop city hall in Circleville. He said it will mean much more, anyway, to the city than to the surrounding rural areas. The wail of the siren, he estimated, will be heard over about a one-mile radius of Circleville.

Spring's Near! Food Institute To Open Soon

An all-new Gasco Food Institute, featuring everything from old fashioned homecooking to fancy foreign dishes, will be in Circleville next Tuesday, Wednesday and Thursday.

James W. Cole, local manager of the Ohio Fuel Gas Company, said the three-day free show will play at Memorial Hall, starting at 8 p. m. daily.

Sponsored by Ohio Fuel and The Circleville Herald, in cooperation with local merchants, this year's show will include the latest fashions in dress and appliances.

There will be demonstrations, homemaking tips, and all recipes will be available to the audiences.

The new and exotic, coupled with the old fashioned, sets the theme of the show. "Foreign Flair in Food" is the name of the first-day showing; "Kitchen Fashions" takes the second-day spotlight, and "Remember Mama's Cooking" is the final show.

Sarah Gallagher, local Betty Newton, will assist Gasco foods lecturer Mildred Dunn and Food Institute manager Jay Parker throughout all shows.

Matusow's Diary Phony, Ohioan Says

WASHINGTON (AP) — Ohio newspaperman John J. Edmiston says a diary episode in Harvey Matusow's forthcoming book is demonstrably false.

Edmiston told Senate investigators yesterday the episode, centering on the morning before Matusow's first testimony before the House UnAmerican Activities Committee, indicates "this diary is a phony."

Edmiston told the Internal Security subcommittee, headed by Sen. Eastland (D-Miss) the book quotes a purported entry in Matusow's diary for Feb. 6, 1952, as saying that Matuso "made some coffee."

The Middletown (Ohio) Journal reporter testified there was no coffee or anything to make it with in their hotel suite.

The Senate group seeks to establish when Matuso lied and when he spoke truthfully in testimony before congressional Red probers.

Edmiston and his wife, Martha, testified they worked inside the Communist party for the FBI in 1940 and 1941.

They said Matusow informed them in 1951 he was a former Red who wanted to tell all, and gave them a statement of his experience in the party.

Mrs. Edmiston said, "It was a very meager little experience within the party. We thought he was arrogant in presuming he would become a national character on the basis of it. He thought he would be a movie star."

3 Lausche Aides Get Senate OK

COLUMBUS (AP)—The Ohio Senate yesterday confirmed the appointments of three major office-holders named by Gov. Frank J. Lausche.

Confirmation was extended to Edward J. Kenealy of Cleveland, to be a member of the state utilities commission; Zoyd M. Flaler of Coldwater as public works director, and William C. Bryant as liquor director. There was a floor fight lasting nearly one hour before the Senate confirmed Kenealy, 25-8. His critics declared Kenealy was not fitted for the semi-judicial post on the utilities commission. They contended he is biased in favor of public ownership of utilities.

Ike Seeking $1.2 Billion Far East Fund

WASHINGTON (AP) — The Eisenhower administration was reported today planning to ask Congress for $1.2 billion to step up by about a fifth the flow of American economic aid to the Communist-threatened Far East.

This sum (some $200 million more than Congress provided last year) would go to buy raw materials, food and equipment for 16 non-Communist countries during the year beginning July 1.

Any proposal to increase nonmilitary aid is certain to face opposition in Congress.

A new feature of the aid program as outlined by informed sources would be a $200 million Asia loan fund. This would be turned over to President Eisenhower to allocate to groups of Far Eastern countries who join in financing projects to improve the region as a whole.

Foreign Aid Director Harold E. Stassen plans to talk over the Asia aid plan, now being drafted after months of discussion, when he meets Monday with Eisenhower.

Stassen, winding up a seven-nation tour of Far East Nations, and Secretary of State Dulles are reported satisfied that the 20 per cent increase in Asia aid funds will permit a start on a program for improving living conditions.

Secretary of the Treasury Humphrey, who has been reported lukewarm to the idea of large-scale aid increases for the region, is also reported to have agreed.

Ogaio [Ohio] Has Its Bad Points, According To New Red Encyclopedia

MOSCOW (AP)—The state of Ogaio (as Ohio is spelled here) may consider itself quite a progressive place, as well as being a mother of presidents.

But according to the Great Soviet Encyclopedia, whose volume 30 is just off the presses here, Ogaio is also rather ill-famed for being the seat of "a number of capitalistic monopolies, among them the noted Cleveland financial group, which plays an important role in the economic and political life of the entire United States."

The encyclopedia devotes 1½ pages to the State of Ohio and the Ohio River, with maps thrown in. It acknowledges that "economically, Ohio is one of the most developed states" and that the "Ohio River Valley is one of the most important industrial and agricultural regions of the U.S.A. in which one-seventh of the whole population of the country is living."

It remarks that Ohio, with Akron as the hub for this, ranks first among the states in rubber production. Also that Ohio ranks second only to Pennsylvania in iron and steel production, and that it has diversified other heavy industry including "atomic production centers."

As for agriculture, the encyclopedia says corn and cattle predominate, but it claims that "small farmers are being ruined and the land is more and more coming into possession of the big owners. The number of farms in Ohio declined from 255,000 in 1935 to 199,000 in 1950."

Besides being a center of "capitalistic monopolies," the encyclopedia says that Ohio has contributed much to the politcal life of the United States.

"Out of the 16 presidents of the U. S. A. chosen from 1859 to 1950, seven came from Ohio," it reports.

Recounting the history of Ohio, the encyclopedia reports that when the American colonizers got hold of the territory following tussles between the British and French, they "destroyed a part of the native Indian population and pushed the others back to the bad lands."

Nevertheless, Ohio is credited with having been a northern spearhead against Negro slavery in the South before and during the Civil War.

New 'Three R's' Bill Near OK In Legislature

Requirement To Teach Harms Of Liquor Pulled Out Of School Bill

COLUMBUS (AP)—The "Three Rs" bill, a measure to require schools to teach a set of basic subjects, sailed into smoother waters in the Ohio Legislature today.

Stripped from the House-approved bill was an amendment temporarily hung on it by a Senate committee — an amendment to permit, rather than require, schools to teach "the harmful effects of alcoholic beverages."

The amendment, adopted by a 5-3 vote last week, had appeared to be a fatal millstone around the bill's neck. But, by a legislative maneuver yesterday, the amendment was reconsidered and killed.

That action, with one exception, put the bill back in the same shape it was when it was approved by the House. That meant its passage by the Senate and subsequent approval by the House of Senate amendments are more likely.

If the bill becomes law, it practically would put the law back to what it was in 1943 when a "sleeper" amendment changed the law from "shall" to "may" with regard to subjects the state's schools are to teach.

* * *

THE ONLY Senate amendment which still stands is one to require a year's study of American history for a child graduating from the eighth to ninth grade—a requirement not placed on school pupils now or before the law was changed in 1943.

House and Senate planned to begin their long weekend recess today after deciding the fate of a bill to increase the salaries of county

Guaranteed Wage Battle Readied

DETROIT (AP) — The bell sounds next week for the opening round in the CIO United Auto Workers' showdown fight for a guaranteed annual wage in the auto industry.

The union announced in joint statements with General Motors and Ford yesterday that "explatory" talks will be held separately with each company.

The GM and Ford talks will cover roughly half a million workers. They will spearhead a drive which the union hopes will win a guaranteed annual wage for more than a million auto workers and perhaps many of the CIO's four million other members.

College Slaying Trial Scheduled

MEDIA, Pa. (AP) — Delaware County Judge Arthur P. Berthereck has set March 22 for the murder trial of Robert B. Bechtel, 22, of Pottstown in the death of a fellow Swarthmore College student.

Bechtel pleaded innocent to an indictment charging him with the fatal shooting of Francis Holmes Strozier, 19, of Akron, Ohio, while Strozier slept in a Swarthmore dormitory last Jan. 11.

Albert Blumberg, Bechtel's attorney, said a sanity commission will reconvene tomorrow to examine Bechtel.

FOUR PERSONS suddenly found themselves "on stage" when the wall of their two-story home in Philadelphia collapsed as they were sleeping. Storm damage was responsible for undermining the structure, and firemen had to rescue the family.

$5700 Of Bank Loot Recovered

DAYTON (AP)—The FBI says it has found $5,700 in the home of two suspects arrested in Tuesday's robbery of the Waynesville National Bank in Warren County.

M. W. McFarlin, agent-in-charge of the Cincinnati FBI office, said the money was found several hours after the arrest yesterday of Denver Wells, 32, and Joe Crafton, 21.

Both pleaded innocent when arraigned on federal bank robbery charges yesterday. U. S. Commissioner Charles Ozias ordered them held under $25,000 bond each pending a hearing March 17.

The Waynesville bank was robbed by two men who forced four employes and two customers to lie on the floor. They scooped up $12,000 and fled in a car.

State Gasoline Fund Given Counties

COLUMBUS (AP)—The state today distributed almost $5 million in gasoline and sales tax funds to Ohio's 88 counties and 935 cities and villages.

The gas tax fund amounted to $3,356,825, and the sales tax funds totaled $1,608,390.

Each county receives $10,000 from the gasoline fund for its road program. Payments to cities and villages vary according to their motor vehicle registration.

Gasoline tax checks were sent to municipalities within the counties. Here is a breakdown by counties of the total amount received by municipalities:

Clinton $6,559, Fayette $5,726, Hocking $3,089, Pickaway $5,796, Van Wert $7,859.

Senate Dems Try New Tax Cut Measure

Low Bracket Income Relief Sought, But Prospects Said Slim

WASHINGTON (AP)—Senate Democrats prepared for sharp, partisan debate on tax relief for low bracket incomes today.

The Senate Democratic leadership unveiled its own income tax cut plans yesterday as a substitute for the House-passed $20-a-person reduction for everybody.

The House provision, an annual $2.2 billion cut, seems doomed to defeat in the Senate.

The substitute would give $908 million of annual relief, nearly all of it to low income families, at the rate of $20 for the taxpayer and $10 for each dependent except his wife. But it would repeal other benefits for corporations and higher income taxpayers which Democrats contend would more than offset that amount.

Their chances of putting over the substitute did not appear too bright. Two powerful Southern Democrats on the Finance Committee, Byrd of Virginia, its chairman, and George of Georgia, said they would not go along.

George said "it's better than the House bill" but added "I do not think it is likely it will change my position."

Byrd said "I do not think it will change things on the Senate floor."

Majority Leader Lyndon B. Johnson (D-Tex) declared he believed the substitute "will appeal to a majority of the senators."

Other Democratic sources, however, said that it was likely that only enough votes would be switched by the substitute to cut Byrd's supporters down to about six Democrats. He has been claiming 10 would go down the line with him against an income tax cut.

Thus, these sources said, the outcome will depend on whether many Republicans will desert the administration.

So far Senate GOP leaders have insisted they will lose no more than two votes. The Senate now is 49-47 Democratic.

The Senate Democratic leadership's income tax cut could be used only to the extent it exceeds the advantage of income splitting now enjoyed by married couples; the effect of this generally would be to limit the cut to families with incomes below $5,000.

'Hot' Cobalt-60 Brought To Ohio

COLUMBUS (AP) — Radioactive "hot" cobalt-60 was transferred in a delicate operation to the bottom of a water tank yesterday at Battelle Memorial Institute.

The transfer of the cobalt tubes had to be done with care since they emit fatal gamma rays.

The cobalt-60 was encased in a lead container brought by truck from Oak Ridge, Tenn. When transferred to the bottom of the tank, the surrounding water acts as a shield to protect laboratory workers from the deadly rays.

The cobalt tubes will be used to improve materials and processing techniques through radiation. Synthetic chemicals, rubber materials and new plastics are other possibilities that may evolve from radiation experiments.

Hungary's Nagy Hit Anew As Party Chiefs Assume Command

VIENNA, Austria (AP)—The well-informed Vienna newspaper Arbeiter-Zeitung reported today that the premiers of Communist Poland and Albania, like Hungary's Imre Nagy, soon will be on their way out of office.

The paper said the position of Poland's Josef Cyrankiewicz and Albanias Lt. Gen. Mehmet Shehu is identical with that of Nagy, who was charged with "rightist deviationism" at a session this week of the Hungarian Communist party's central committee.

Cyrankiewicz and Shehu became premiers when the Communist party "strong men," Boleslaw Bierut in Poland and Gen. Enver Hoxha in Albania, withdrew to positions as first party secretaries after Stalin's death. In Hungary, Nagy succeeded Matyas Rakosi, who retained his party secretary post.

Rakosi made his comeback as Navy's chief accuser in the central committee session. He is expected to take revenge on the followers of the "new course" under Nagy, Arbeiter-Zeitung said.

* * *

THE PAPER SAID the attack on Nagy appeared to signal the end of the period of "collective leadership" in the satellites and a return to the one-man rule customary under Stalin.

Arbeiter - Zeitung precited that Nagy, following the pattern set by ousted Soviet Premier Georgi Malenkov, will formally resign after a "confession" in parliament.

New accusations were made against Nagy today in an editorial of the Hungarian party newspaper Szabad Nep, broadcast by Budapest radio.

The editorial charged he falsified Communist party directives when he made his 1953 government proclamation stressing increased production of consumer goods and promising to ease up on forced farm collectivization.

The editorial indicated the Hungarian Communists fear resentment by the people concerning their action against Nagy.

U. S. Boosts Dependence On Allies

WASHINGTON (AP)—John J. McCloy, board chairman of the Chase National Bank, said today the United States is becoming economically more dependent on its allies "as the free world grows stronger."

McCloy, former U. S. high commissioner for Germany, told the Senate Banking Committee this trend works the other way too; other Western countries increasingly need the support of the American economy.

The committee, headed by Sen. Fulbright (D-Ark), called McCloy and Marriner S. Eccles, former Federal Reserve Board chairman, as today's witnesses in its week-old "friendly study" of the recently zig-zagging stock market.

McCloy was asked to testify about the impact of foreign participation in the American stock market. His reply was that it's not very great and appears to have been decreasing in recent years.

"At the end of 1953," he said, "foreigners were reported by the Department of Commerce to hold U.S. stocks, common and preferred, valued at $3,400,000,000. This was equal to only 2.9 per cent of the total value of stocks listed on the New York Stock Exchange."

McCloy said industrial experience of 1953-54 casts doubt on a widely held belief that "even a minor recession in the United States would set in train a downward spiral in the economies of other nations which they could not avoid."

Ohio River Starts To Drop In Flooded Cincinnati Area

CINCINNATI (AP) — The worst Ohio River flood since 1948 crested at 61 feet at Cincinnati today and has now moved into the Indiana-Kentucky area.

The crest was reached bewteen 2 and 3 o'clock this morning, the weather bureau announced. It was nine feet above flood stage.

After remaining stationary for a short time, the water began to drop at a rate of about one-tenth inch per hour.

There still was a lot of water in and around Cincinnati. The Coney Island amusement park and the River Downs race track were from 6 to 20 feet under water.

Low-lying streets in the downtown district also were flooded and so were several railroad yards.

The flood left behind it multi-million dollar damage and several thousand persons homeless. It never reached the proportions of a major catastrophe.

Normally, the river crests and then is at a standstill for several hours before it begins to recede.

High waters indirectly caused one death when a Cincinnati warehouse worker drowned, trapped in an elevator descending into deep basement waters.

Police said the man, Trenton Harton Jr., 30, was trapped when he apparently became excited and failed to stop the elevator. He had taken the ride to see "how deep the water was" in the warehouse basement near the river. His calls for help echoed from the death cage. Fellow workers were unable to reach him.

The Red Cross said 3,182 families in Ohio, West Virginia, Kentucky and Indiana had been affected so far by the flood.

Indiana state officials looked to flood walls and levees to help protect low area property. Flood walls in Ohio and West Virginia were credited with prevention millions of dollars in damages.

Scattered showers were forecast for the Ohio Valley but the predictions brought little concern.

The Huntington, W. Va., district of the Ohio River engineers was the first to come up with a flood damage estimate. That district covers the river from Powhatan Point, Ohio, to Maysville, Ky., plus the river's tributaries in the area.

Col. George T. Derby, district engineer, estimated the damage at more than $8,657,000 but he said flood walls and reservoirs had prevented $50½ million in damage.

Matusow's Diary Phony, Ohioan Says

WASHINGTON (AP) — Ohio newspaperman John J. Edmiston says a diary episode in Harvey Matusow's forthcoming book is demonstrably false.

Edmiston told Senate investigators yesterday the episode, centering on the morning before Matusow's first testimony before the House UnAmerican Activities Committee, indicates "this diary is a phony."

Edmiston told the Internal Security subcommittee, headed by Sen. Eastland (D-Miss) the book quotes a purported entry in Matusow's diary for Feb. 6, 1952, as saying that Matuso "made some coffee."

The Middletown (Ohio) Journal reporter testified there was no coffee or anything to make it with in their hotel suite.

The Senate group seeks to establish when Matuso lied and when he spoke truthfully in testimony before congressional Red probers.

Edmiston and his wife, Martha, testified they worked inside the Communist party for the FBI in 1940 and 1941.

They said Matusow informed them in 1951 he was a former Red who wanted to tell all, and gave them a statement of his experience in the party.

Mrs. Edmiston said, "It was a very meager little experience within the party. We thought he was arrogant in presuming he would become a national character on the basis of it. He thought he would be a movie star."

3 Lausche Aides Get Senate OK

COLUMBUS (AP)—The Ohio Senate yesterday confirmed the appointments of three major office-holders named by Gov. Frank J. Lausche.

Confirmation was extended to Edward J. Kenealy of Cleveland, to be a member of the state utilities commission; Zoyd M. Flaler of Coldwater as public works director, and William C. Bryant as liquor director. There was a floor fight lasting nearly one hour before the Senate confirmed Kenealy, 25-8. His critics declared Kenealy was not fitted for the semi-judicial post on the utilities commission. They contended he is biased in favor of public ownership of utilities.

NEW YORK (AP)—Dr. Ernest P. Boas, 64, internationally known specialist in heart and chronic diseases, a teacher and hospital administrator, died yesterday.

Ike Seeking $1.2 Billion Far East Fund

WASHINGTON (AP) — The Eisenhower administration was reported today planning to ask Congress for $1.2 billion to step up by about a fifth the flow of American economic aid to the Communist-threatened Far East.

This sum (some $200 million more than Congress provided last year) would go to buy raw materials, food and equipment for 16 non-Communist countries during the year beginning July 1.

Any proposal to increase nonmilitary aid is certain to face opposition in Congress.

A new feature of the aid program as outlined by informed sources would be a $200 million Asia loan fund. This would be turned over to President Eisenhower to allocate to groups of Far Eastern countries who join in financing projects to improve the region as a whole.

Foreign Aid Director Harold E. Stassen plans to talk over the Asia aid plan, now being drafted after months of discussion, when he meets Monday with Eisenhower.

Stassen, winding up a seven-nation tour of Far East Nations, and Secretary of State Dulles are reported satisfied that the 20 per cent increase in Asia aid funds will permit a start on a program for improving living conditions.

Secretary of the Treasury Humphrey, who has been reported lukewarm to the idea of large-scale aid increases for the region, is also reported to have agreed.

New 'Three R's' Bill Near OK In Legislature

Requirement To Teach Harms Of Liquor Pulled Out Of School Bill

COLUMBUS (AP)—The "Three Rs" bill, a measure to require schools to teach a set of basic subjects, sailed into smoother waters in the Ohio Legislature today.

Stripped from the House-approved bill was an amendment temporarily hung on it by a Senate committee — an amendment to permit, rather than require, schools to teach "the harmful effects of alcoholic beverages."

The amendment, adopted by a 5-3 vote last week, had appeared to be a fatal millstone around the bill's neck. But, by a legislative maneuver yesterday, the amendment was reconsidered and killed.

That action, with one exception, put the bill back in the same shape it was when it was approved by the House. That meant its passage by the Senate and subsequent approval by the House of Senate amendments are more likely.

If the bill becomes law, it practically would put the law back to what it was in 1943 when a "sleeper" amendment changed the law from "shall" to "may" with regard to subjects the state's schools are to teach.

* * *

THE ONLY Senate amendment which still stands is one to require a year's study of American history for a child graduating from the eighth to ninth grade—a requirement not placed on school pupils now or before the law was changed in 1943.

Guaranteed Wage Battle Readied

DETROIT (AP) — The bell sounds next week for the opening round in the CIO United Auto Workers' showdown fight for a guaranteed annual wage in the auto industry.

The union announced in joint statements with General Motors and Ford yesterday that "explatory" talks will be held separately with each company.

The GM and Ford talks will cover roughly half a million workers. They will spearhead a drive which the union hopes will win a guaranteed annual wage for more than a million auto workers and perhaps many of the CIO's four million other members.

College Slaying Trial Scheduled

MEDIA, Pa. (AP) — Delaware County Judge Arthur P. Bertherick has set March 22 for the murder trial of Robert B. Bechtel, 22, of Pottstown in the death of a fellow Swarthmore College student.

Bechtel pleaded innocent to an indictment charging him with the fatal shooting of Francis Holmes Strozier, 19, of Akron, Ohio, while Strozier slept in a Swarthmore dormitory last Jan. 11.

Albert Blumberg, Bechtel's attorney, said a sanity commission will reconvene tomorrow to examine Bechtel.

FOUR PERSONS suddenly found themselves "on stage" when the wall of their two-story home in Philadelphia collapsed as they were sleeping. Storm damage was responsible for undermining the structure, and firemen had to rescue the family.

GEORGE E. SOKOLSKY — Tells how he was impressed by an ode to youth which General Douglas MacArthur used as part of his recent address in Los Angeles. The poet was apparently unknown, and Sokolsky goes on to describe how his search for the author led him to the name of Samuel Ullman. See the editorial page.

RAY TUCKER — Hears increased demand for federal supervision and periodic examination of labor union welfare funds. He says it is largely due to the alleged use of welfare funds in an attempt to gain control of the Montgomery Ward Company. See the editorial page.

JAMES MARLOW — Believes Sir Winston Churchill has given one of the most vivid pictures of the peril facing mankind through the hydrogen bomb. Churchill, the columnist points out, is well qualified to talk on the subject, having watched during his own lifetime the transition from old-fashioned methods of destruction to the fearful possibilities of the present day. Waynesville Mayor Dies At Age 81

WAYNESVILLE (AP)—Harry Sherwood, 81, mayor of Waynesville for the last 12 years, died of a heart attack today. Waynesville is in Warren County.

He was widely known throughout Indiana, Ohio and Kentucky as an expert on antique furniture.

$5700 Of Bank Loot Recovered

DAYTON (AP)—The FBI says it has found $5,700 in the home of two suspects arrested in Tuesday's robbery of the Waynesville National Bank in Warren County.

M. W. McFarlin, agent-in-charge of the Cincinnati FBI office, said the money was found several hours after the arrest yesterday of Denver Wells, 32, and Joe Crafton, 21.

Both pleaded innocent when arraigned on federal bank robbery charges yesterday. U. S. Commissioner Charles Ozias ordered them held under $25,000 bond each pending a hearing March 17.

The Waynesville bank was robbed by two men who forced four employes and two customers to lie on the floor. They scooped up $12,000 and fled in a car.

State Gasoline Fund Given Counties

COLUMBUS (AP)—The state today distributed almost $5 million in gasoline and sales tax funds to Ohio's 88 counties and 935 cities and villages.

The gas tax fund amounted to $3,356,825, and the sales tax funds totaled $1,608,390.

Each county receives $10,000 from the gasoline fund for its road program. Payments to cities and villages vary according to their motor vehicle registration.

Gasoline tax checks were sent to municipalities within the counties. Here is a breakdown by counties of the total amount received by municipalities:

Clinton $6,559, Fayette $5,726, Hocking $3,089, Pickaway $5,796, Van Wert $7,859.

Senate Dems Try New Tax Cut Measure

Low Bracket Income Relief Sought, But Prospects Said Slim

WASHINGTON (AP)—Senate Democrats prepared for sharp, partisan debate on tax relief for low bracket incomes today.

The Senate Democratic leadership unveiled its own income tax cut plans yesterday as a substitute for the House-passed $20-a-person reduction for everybody.

The House provision, an annual $2.2 billion cut, seems doomed to defeat in the Senate.

The substitute would give $908 million of annual relief, nearly all of it to low income families, at the rate of $20 for the taxpayer and $10 for each dependent except his wife. But it would repeal other benefits for corporations and higher income taxpayers which Democrats contend would more than offset that amount.

Their chances of putting over the substitute did not appear too bright. Two powerful Southern Democrats on the Finance Committee, Byrd of Virginia, its chairman, and George of Georgia, said they would not go along.

George said "it's better than the House bill" but added "I do not think it is likely it will change my position."

Byrd said "I do not think it will change things on the Senate floor."

Majority Leader Lyndon B. Johnson (D-Tex) declared he believed the substitute "will appeal to a majority of the senators."

Other Democratic sources, however, said that it was likely that only enough votes would be switched by the substitute to cut Byrd's supporters down to about six Democrats. He has been claiming 10 would go down the line with him against an income tax cut.

Thus, these sources said, the outcome will depend on whether many Republicans will desert the administration.

So far Senate GOP leaders have insisted they will lose no more than two votes. The Senate now is 49-47 Democratic.

The Senate Democratic leadership's income tax cut could be used only to the extent it exceeds the advantage of income splitting now enjoyed by married couples; the effect of this generally would be to limit the cut to families with incomes below $5,000.

'Hot' Cobalt-60 Brought To Ohio

COLUMBUS (AP) — Radioactive "hot" cobalt-60 was transferred in a delicate operation to the bottom of a water tank yesterday at Battelle Memorial Institute.

The transfer of the cobalt tubes had to be done with care since they emit fatal gamma rays.

The cobalt-60 was encased in a lead container brought by truck from Oak Ridge, Tenn. When transferred to the bottom of the tank, the surrounding water acts as a shield to protect laboratory workers from the deadly rays.

The cobalt tubes will be used to improve materials and processing techniques through radiation. Synthetic chemicals, rubber materials and new plastics are other possibilities that may evolve from radiation experiments.

U. S. Boosts Dependence On Allies

WASHINGTON (AP)—John J. McCloy, board chairman of the Chase National Bank, said today the United States is becoming economically more dependent on its allies "as the free world grows stronger."

McCloy, former U. S. high commissioner for Germany, told the Senate Banking Committee this trend works the other way too; other Western countries increasingly need the support of the American economy.

The committee, headed by Sen. Fulbright (D-Ark), called McCloy and Marriner S. Eccles, former Federal Reserve Board chairman, as today's witnesses in its week-old "friendly study" of the recently zig-zagging stock market.

McCloy was asked to testify about the impact of foreign participation in the American stock market. His reply was that it's not very great and appears to have been decreasing in recent years.

"At the end of 1953," he said, "foreigners were reported by the Department of Commerce to hold U.S. stocks, common and preferred, valued at $3,400,000,000. This was equal to only 2.9 per cent of the total value of stocks listed on the New York Stock Exchange."

McCloy said industrial experience of 1953-54 casts doubt on a widely held belief that "even a minor recession in the United States would set in train a downward spiral in the economies of other nations which they could not avoid."

Ohio River Starts To Drop In Flooded Cincinnati Area

CINCINNATI (AP) — The worst Ohio River flood since 1948 crested at 61 feet at Cincinnati today and has now moved into the Indiana-Kentucky area.

The crest was reached bewteen 2 and 3 o'clock this morning, the weather bureau announced. It was nine feet above flood stage.

After remaining stationary for a short time, the water began to drop at a rate of about one-tenth inch per hour.

There still was a lot of water in and around Cincinnati. The Coney Island amusement park and the River Downs race track were from 6 to 20 feet under water.

Low-lying streets in the downtown district also were flooded and so were several railroad yards.

The flood left behind it multi-million dollar damage and several thousand persons homeless. It never reached the proportions of a major catastrophe.

Normally, the river crests and then is at a standstill for several hours before it begins to recede.

High waters indirectly caused one death when a Cincinnati warehouse worker drowned, trapped in an elevator descending into deep basement waters.

Police said the man, Trenton Harton Jr., 30, was trapped when he apparently became excited and failed to stop the elevator. He had taken the ride to see "how deep the water was" in the warehouse basement near the river. His calls for help echoed from the death cage. Fellow workers were unable to reach him.

The Red Cross said 3,182 families in Ohio, West Virginia, Kentucky and Indiana had been affected so far by the flood.

Indiana state officials looked to flood walls and levees to help protect low area property. Flood walls in Ohio and West Virginia were credited with prevention millions of dollars in damages.

Scattered showers were forecast for the Ohio Valley but the predictions brought little concern.

The Huntington, W. Va., district of the Ohio River engineers was the first to come up with a flood damage estimate. That district covers the river from Powhatan Point, Ohio, to Maysville, Ky., plus the river's tributaries in the area.

Col. George T. Derby, district engineer, estimated the damage at more than $8,657,000 but he said flood walls and reservoirs had prevented $50½ million in damage.

PUCO Begins Hearing On Phone Rates

Another battle involving telephone rates in Ohio, a struggle of particular interest at this time to residents of Pickaway County, opened today in Columbus.

Attorneys representing the state's independent telephone companies began outlining their claim that uniformity in telephone toll rates is essential. And that it is reasonable to grant the independents an automatic increase when a long distance rate hike is granted the Ohio Bell Telephone Company.

In a public hearing before the Public Utilities Commission of Ohio, they said toll rate uniformity was just, created no discrimination and was in the best interests of the public.

The commission on Feb. 4 issued citations to all independent telephone companies in Ohio whose tariff provisions concur with the long distance rates of Ohio Bell. The companies were asked to show cause why this operation affecting automatic increases is not in violation of law.

The companies contend that concurrence in tariffs is desirable since lack of uniformity would ultimately be reflected in increased rates to the public. Company representatives said toll charges would vary from one company to another if uniformity was not carried out.

Attorneys urged the PUCO to recognize the need for toll rate uniformity and the concurring tariffs with Ohio Bell.

Under a recent rate increase granted Ohio Bell by PUCO, any long distance toll increase incorporated into the new rate schedule also applies to the state's independent telephone companies.

The commission, however, said no rate, toll or charge shall become effective until the commission by order, determines it to be just and reasonable.

State Bureau Lists Title Instructions

An announcement from the Ohio Bureau of Motor Vehicles has been released by the Common Pleas Court Clerk's office here.

"In the future, properly advise all applicants that their name must appear in full on the application for certificate of title. For example, John D. Jones, rather than J. D. Jones.

"Do not accept an application for certificate of title when the husband's given name is used by the wife rather than her given name. A certificate of title, when issued, shall be in the name of Mrs. Mary Jones, rather than Mrs. John Jones."

The clerk's office asks that all persons take note of the instructions.

Ford Hit By New Wildcat Strike

CLEVELAND (AP)—A second wildcat strike, an outgrowth of one 10 days ago, hit the Fort Motor Company's foundry and engine plant at Brook Park last night.

Pickets, members of the CIO Automobile Workers, appeared at the gates before the 11 p. m. shift. They said they were protesting the firing of eight union stewards accused of leading the earlier walkout. About 1,000 workers (a third of the normal force) crossed the picket lines, but there was no violence.

Fire At Container Does Little Damage

A blaze was reported Wednesday night at the local plant of Container Corporation but did little damage, according to Fire Chief Talmer Wise.

The fire apparently started from an accumulation of straw around the bearings in No. 11 and No. 12 steel rotaries, Wise said. The heat generated in the machinery caused four or five sprinkler heads to go in the firm's fire protection system.

The alarm was turned in at 11:35 p. m.

New 'Three R's' Bill Near OK In Legislature

(Continued from Page One)

auditors. The Senate had the upper hand in a late-developing dispute which threatened to doom the measure.

The Senate passed the bill originally. The House passed a substitute bill. But the rub is this: Unless the emergency measure is a state law by Saturday, it probably will do auditors no good.

That's because the Ohio constitution prohibits officeholders from receiving pay increases during their terms. Ohio's county auditors begin new terms next Monday.

After House passage of the substitute bill yesterday, the Senate met informally and decided it would refuse to accept the House bill. That puts the issue up to the House: Accept the Senate bill or see the whole matter die.

These are the major points of difference:

1. The House measure provides a top of $9,500 including inheritance fees and a minimum of $3,600 for county auditors, depending on their county's population.

2. The Senate bill sets a top of $10,000, without inheritance fees.

Present limits range from $2,600 in the smallest counties to $9,000.

The Senate-House dispute may affect salaries of other county officials — treasurers, recorders, judges, sheriffs and commissioners. If the auditors' pay raise dies, there is little hope for increases for the others.

Woman In County Accidentally Shot

A report reaching the sheriff's department here from Franklin County authorities said that an Orient Route 1 woman was accidentally shot Sunday night.

Mrs. Lillie Waits, 34, was first treated by a physician and then taken to a Columbus hospital. The wound, made by a 410 guage shotgun, was in the upper part of her right leg.

The report stated Mrs. Waits and her husband were "acting the fool" with the gun. Her husband, Alfred, said he thought he had taken the last shell out of the weapon.

City PTA Shows Religious Film Thursday Night

The Circleville City Parent Teachers' Assn. will show a feature full-length natural color sound film called, "The Story of the Life of Jesus Christ", at the local high school auditorium Thursday at 8 p. m.

This 1 1-2 hour film is taken from the Pilgrimage Play and has an outstanding cast of professionals from Hollywood. Peter; James and John; Mary, the mother of Jesus; Mary of Bethany; and Mary Magdalene live and walk and talk as tough the pages of the Bible had suddenly became alive.

Most impressible of all is the masterful portrayal of the life of Jesus.

The PTA is making this adult showing of the film possible as the Easter program. The boys and girls will all see the film at school where it is being sponsored by the Circleville Hi-Y Club. Both groups are sharing the rental for this excellent religious film.

ALL THE CHURCHES in Circleville already have carried announcements of this film urging their congregations to fill the auditorium to capacity. It has also received the backing of the Circleville Ministerial Assn.

This film will be absolutely free and no collection will be taken.

State Disbursements To County Revealed In Report By Rhodes

Pickaway county, its political subdivisions, and its needy persons received a total of $1,955,594.11 in state and federal funds from the State Auditor's office during the fiscal year ended June 30, 1954, according to figures just released by State Auditor James A. Rhodes

This was part of the $380,176,498 distributed by Rhodes' office. Of this total, $322,024,992.20 was state funds and $58,151,505.80 was federal funds.

These fund distributions are classified as follows:

1. For local government purposes, which included the gasoline tax, motor vehicle license fees, sales tax, intangible tax and payments for health. The total of these was $131,051,963.65.

* * *

2. **FOR PUBLIC** welfare purposes, which included poor relief, old age pensions, aid to dependent, blind, and crippled children, and aid to those totally disabled. The statewide total of these public welfare payments was $113,683,645.75.

3. For educational purposes, including school foundation program, special education, teacher training, vocational education, interest paid to school districts on irreducible debt, school trust and land rental payments, school lunch program, and aid to public libraries. The grand total of educational distributions was $123,005,599.12.

4. For miscellaneous purposes. These included liquor permit fees, transportation and court costs in state criminal cases, subsidy paid local police and firemen's relief and pension funds, tuberculosis subsidy, pawnbrokers' fees and civil defense. The state total of such payments was $12,435,289.48.

Local governments in Pickaway County received a total of $586,217.04.

For public welfare purposes, this county, its political subdivisions and individuals received $731,862.83.

* * *

FOR EDUCATIONAL purposes, Pickaway County and its school districts received $623,066.58.

For miscellaneous local purposes, this county received $14,447.66.

Ohio Fuel Given High Safety Rating

The Ohio Fuel Gas Company has been rated the safest large gas utility company in the nation on the basis of its worker-accident record for 1954, it was announced today by James W. Cole, Ohio Fuel local manager in Circleville.

The award was made by the National Safety Council in the gas division of its annual safety contest among public utility companies. E. D. Bivens, Ohio Fuel vice president and general manager at Columbus, received notification from Ned H. Dearborn, president of the Safety Council at Chicago.

The citation will be commemorated with a plaque issued by the Safety Council.

Since 1938, Ohio Fuel has won repeated recognition for its industrial safety record. In that 17-year period of entry in the Safety Council's Public Utilities Safety Contest, Ohio Fuel has won first place in its division 12 times, second place twice, third place twce and fourth place once.

Dowlers Awarded $15,000 By Jury

Owners of the John Dowler Farm south of South Bloomfield on Route 23, were awarded $15,000 in damages from the State Highway Department.

A jury Wednesday afternoon returned the verdict in the case involving right-of-way for the four-laning of Route 23. The new southbound lanes of the highway reportedly would go through the present site of Dowler's home, garage, chicken house, truck farm and other buildings.

Tom Renick, one of the Dowler attorneys, said he did not know whether or not the verdict would be appealed. The amount granted was allegedly within $200 of what the state had originally offered.

Side-By-Side Race Kills Youth, 18

COLUMBUS (AP)—Sheriff's deputies said a side-by-side auto race last night ended in both cars going out of control, killing a passenger in one, Charles E. Engel, 18, Columbus. The two teen-age drivers escaped with minor cuts.

Deputies said that the two autos, the drivers of which were not identified, were racing side-by - side along a road when one of them went out of control, plunged into a ditch, careened 300 feet and then plowed into the opposite ditch.

Ike To Keep U. S. Forces In Europe

WASHINGTON (AP) — President Eisenhower told America's European allies today the United States will maintain its "fair share" of military forces in Europe so long as there is a threat to the area.

The pledge was given in a message from the President to the prime ministers of seven European nations which are setting up a Western European Union to include a rearmed West Germany. These nations are Britain, France, West Germany, Belgium, Italy, Luxembourg and the Netherlands.

PUCO Begins Hearing On Phone Rates

Another battle involving telephone rates in Ohio, a struggle of particular interest at this time to residents of Pickaway County, opened today in Columbus.

Attorneys representing the state's independent telephone companies began outlining their claim that uniformity in telephone toll rates is essential. And that it is reasonable to grant the independents an automatic increase when a long distance rate hike is granted the Ohio Bell Telephone Company.

In a public hearing before the Public Utilities Commission of Ohio, they said toll rate uniformity was just, created no discrimination and was in the best interests of the public.

The commission on Feb. 4 issued citations to all independent telephone companies in Ohio whose tariff provisions concur with the long distance rates of Ohio Bell. The companies were asked to show cause why this operation affecting automatic increases is not in violation of law.

The companies contend that concurrence in tariffs is desirable since lack of uniformity would ultimately be reflected in increased rates to the public. Company representatives said toll charges would vary from one company to another if uniformity was not carried out.

Attorneys urged the PUCO to recognize the need for toll rate uniformity and the concurring tariffs with Ohio Bell.

Under a recent rate increase granted Ohio Bell by PUCO, any long distance toll increase incorporated into the new rate schedule also applies to the state's independent telephone companies.

The commission, however, said no rate, toll or charge shall become effective until the commission by order, determines it to be just and reasonable.

More Cases Noted In Municipal Court

State Bureau Lists Title Instructions

An announcement from the Ohio Bureau of Motor Vehicles has been released by the Common Pleas Court Clerk's office here.

"In the future, properly advise all applicants that their name must appear in full on the application for certificate of title. For example, John D. Jones, rather than J. D. Jones.

"Do not accept an application for certificate of title when the husband's given name is used by the wife rather than her given name. A certificate of title, when issued, shall be in the name of Mrs. Mary Jones, rather than Mrs. John Jones."

The clerk's office asks that all persons take note of the instructions.

Ford Hit By New Wildcat Strike

CLEVELAND (AP)—A second wildcat strike, an outgrowth of one 10 days ago, hit the Fort Motor Company's foundry and engine plant at Brook Park last night.

Pickets, members of the CIO Automobile Workers, appeared at the gates before the 11 p. m. shift. They said they were protesting the firing of eight union stewards accused of leading the earlier walkout. About 1,000 workers (a third of the normal force) crossed the picket lines, but there was no violence.

Fire At Container Does Little Damage

A blaze was reported Wednesday night at the local plant of Container Corporation but did little damage, according to Fire Chief Talmer Wise.

The fire apparently started from an accumulation of straw around the bearings in No. 11 and No. 12 steel rotaries, Wise said. The heat generated in the machinery caused four or five sprinkler heads to go in the firm's fire protection system.

The alarm was turned in at 11:35 p. m.

New 'Three R's' Bill Near OK In Legislature

(Continued from Page One)

auditors. The Senate had the upper hand in a late-developing dispute which threatened to doom the measure.

The Senate passed the bill originally. The House passed a substitute bill. But the rub is this: Unless the emergency measure is a state law by Saturday, it probably will do auditors no good.

That's because the Ohio constitution prohibits officeholders from receiving pay increases during their terms. Ohio's county auditors begin new terms next Monday.

After House passage of the substitute bill yesterday, the Senate met informally and decided it would refuse to accept the House bill. That puts the issue up to the House: Accept the Senate bill or see the whole matter die.

These are the major points of difference:

1. The House measure provides a top of $9,500 including inheritance fees and a minimum of $3,600 for county auditors, depending on their county's population.

2. The Senate bill sets a top of $10,000, without inheritance fees.

Present limits range from $2,600 in the smallest counties to $9,000.

The Senate-House dispute may affect salaries of other county officials — treasurers, recorders, judges, sheriffs and commissioners. If the auditors' pay raise dies, there is little hope for increases for the others.

Woman In County Accidentally Shot

A report reaching the sheriff's department here from Franklin County authorities said that an Orient Route 1 woman was accidentally shot Sunday night.

Mrs. Lillie Waits, 34, was first treated by a physician and then taken to a Columbus hospital. The wound, made by a 410 guage shotgun, was in the upper part of her right leg.

The report stated Mrs. Waits and her husband were "acting the fool" with the gun. Her husband, Alfred, said he thought he had taken the last shell out of the weapon.

City PTA Shows Religious Film Thursday Night

The Circleville City Parent Teachers' Assn. will show a feature full-length natural color sound film called, "The Story of the Life of Jesus Christ", at the local high school auditorium Thursday at 8 p. m.

This 1 1-2 hour film is taken from the Pilgrimage Play and has an outstanding cast of professionals from Hollywood. Peter; James and John; Mary, the mother of Jesus; Mary of Bethany; and Mary Magdalene live and walk and talk as tough the pages of the Bible had suddenly became alive.

Most impressible of all is the masterful portrayal of the life of Jesus.

The PTA is making this adult showing of the film possible as the Easter program. The boys and girls will all see the film at school where it is being sponsored by the Circleville Hi-Y Club. Both groups are sharing the rental for this excellent religious film.

ALL THE CHURCHES in Circleville already have carried announcements of this film urging their congregations to fill the auditorium to capacity. It has also received the backing of the Circleville Ministerial Assn.

This film will be absolutely free and no collection will be taken.

Ohio Fuel Given High Safety Rating

The Ohio Fuel Gas Company has been rated the safest large gas utility company in the nation on the basis of its worker-accident record for 1954, it was announced today by James W. Cole, Ohio Fuel local manager in Circleville.

The award was made by the National Safety Council in the gas division of its annual safety contest among public utility companies. E. D. Bivens, Ohio Fuel vice president and general manager at Columbus, received notification from Ned H. Dearborn, president of the Safety Council at Chicago.

The citation will be commemorated with a plaque issued by the Safety Council.

Since 1938, Ohio Fuel has won repeated recognition for its industrial safety record. In that 17-year period of entry in the Safety Council's Public Utilities Safety Contest, Ohio Fuel has won first place in its division 12 times, second place twice, third place twce and fourth place once.

Dowlers Awarded $15,000 By Jury

Owners of the John Dowler Farm south of South Bloomfield on Route 23, were awarded $15,000 in damages from the State Highway Department.

A jury Wednesday afternoon returned the verdict in the case involving right-of-way for the four-laning of Route 23. The new southbound lanes of the highway reportedly would go through the present site of Dowler's home, garage, chicken house, truck farm and other buildings.

Tom Renick, one of the Dowler attorneys, said he did not know whether or not the verdict would be appealed. The amount granted was allegedly within $200 of what the state had originally offered.

Newspaper Note Brings Romance

BRIDGEPORT, Conn. (AP)—Alton F. Niles, 48, of Newtown, wrote a note to the "Live Letter" column of the Bridgeport Post recently complaining that all girls are "gold-diggers" and not desirous of a home and family."

His letter drew a reply from Mrs. Marie P. North, 30, of Bridgeport, who has been a widow for three years.

They met three weeks ago.

The society column in yesterday's Bridgeport Telegram carried an announcement that Mrs. North and Niles will be married March 19 at his home.

Freak Accident Kills Girl, 16

CINCINNATI (AP)—An automobile swerved onto a sidewalk here yesterday and struck and killed Joyce Fun, a 16-year-old theater aide.

Mutual Savings Societies Prove To Be Strange Breed

COLUMBUS, Ohio (AP)—A Senate committee yesterday waded into a delicate question: Should mutual savings societies be permitted to engage in commercial banking activities?

The Senate Committee on Banks and Trust Companies heard testimony on a bill which says "no." Later, it will hear testimony on a bill which says "yes."

Only three Ohio firms are involved. They are in Cleveland, Springfield and Marietta.

The firms are a strange breed of cats. They are not banks, yet they are under the control of the state superintendent of banking. They are not savings and loan institutions. They are neither, and yet they serve some of the same functions as both.

The big question at the first hearing seemed to be this: Should the mutual savings societies be permitted to accept checking accounts?

Said Lewis F. Laylin of Cleveland, former vice president of the Central National Bank and special counsel for the Ohio Bankers Assn.:

"Any society operating accounts in this manner is clearly evading the law."

Laylin said the measure heard yesterday, sponsored by Sen. Charles A. Mosher (R-Lorain), is backed by the Ohio Bankers Assn.

Sponsor of the other bill, set for future hearing, is Sen. William H. Deddens (R-Hamilton). His bill would expand the permissible business of mutual societies.

One of Laylin's principal complaints was that while nine Cleveland commercial banks paid nearly 23½ million dollars in federal income taxes in 1953, the Cleveland Society for Savings paid nothing. The Cleveland society, he said, had approximately 10 per cent of the assets of all the banks.

Laylin declared the Cleveland society got into the checking account business in 1938 through a "gentleman's agreement" with the state superintendent of banking. Under questioning, he said the bankers association has not objected until now because there was no great growth in the Cleveland society's checking account business until 1952.

He added the mutual societies have grown in their legitimate fields and, "with their special privileges and with competent management, they will continue to grow and prosper under the restrictions which this bill would redefine."

1953 Pie-Baking Queen Dies At 19

SANDUSKY (AP) — Ohio's 1953 cherry pie baking queen, 19-year-old Mrs. Rolland W. Hemmer, died yesterday in Providence Hospital after a short illness.

In 1953, when she was Virginia Kaltenbach, she represented Ohio in the national cherry pie baking contest in Chicago.

Prosecutor Named In New Indictment

COLUMBUS (AP)—The grand jury has reindicted Franklin County Prosecutor Frank H. Kearns on two charges dropped earlier on technical grounds. They alleged he embezzled $210 on March 6, 1953, from county funds and obstructed justice in asking that charges against two men be dropped.

Kearns and county detective Fred W. Selby are scheduled for trial March 21 on joint charges of soliciting a bribe. Kearns also is charged with another bribe.

Seymour, 1955 Chairman, Praises Latest Turnout For Bloodmobile

Carl Seymour, chairman of the Red Cross blood program for 1955, thanked the Pickaway County public for its support of the bloodmobile's latest visit.

"It was a very good turnout," he said, "and we hope everyone will work hard to continue the good showing. The bloodmobile on its latest visit to Circleville gathered 115 pints of blood."

The next visit is scheduled for April 21, from 10:30 a. m. to 4:30 p. m. Those who wish to line up now for the next visit are urged to contact their chairmen or call 336.

Newspaper Note Brings Romance

BRIDGEPORT, Conn. (AP)—Alton F. Niles, 48, of Newtown, wrote a note to the "Live Letter" column of the Bridgeport Post recently complaining that all girls are "gold-diggers" and not desirous of a home and family."

His letter drew a reply from Mrs. Marie P. North, 30, of Bridgeport, who has been a widow for three years.

They met three weeks ago.

The society column in yesterday's Bridgeport Telegram carried an announcement that Mrs. North and Niles will be married March 19 at his home.

Freak Accident Kills Girl, 16

CINCINNATI (AP)—An automobile swerved onto a sidewalk here yesterday and struck and killed Joyce Fun, a 16-year-old theater aide.

Homer Lee Jackson Jr., 16, driver of the car, said the vehicle swerved as he clutched the steering wheel in an effort to avoid falling out after the door opened.

Heidelberg To Host Teacher Confab

TIFFIN (AP) — The 19th annual Heidelberg College educational conference is expected to draw some 300 northern Ohio teachers here Saturday.

Dr. Ralph J. Ojemann of the University of Iowa and Dr. Paul J. Misner, superintendent of schools at Glencoe, Ill., are the featured speakers.

Mutual Savings Societies Prove To Be Strange Breed

COLUMBUS, Ohio (AP)—A Senate committee yesterday waded into a delicate question: Should mutual savings societies be permitted to engage in commercial banking activities?

The Senate Committee on Banks and Trust Companies heard testimony on a bill which says "no." Later, it will hear testimony on a bill which says "yes."

Only three Ohio firms are involved. They are in Cleveland, Springfield and Marietta.

The firms are a strange breed of cats. They are not banks, yet they are under the control of the state superintendent of banking. They are not savings and loan institutions. They are neither, and yet they serve some of the same functions as both.

The big question at the first hearing seemed to be this: Should the mutual savings societies be permitted to accept checking accounts?

Said Lewis F. Laylin of Cleveland, former vice president of the Central National Bank and special counsel for the Ohio Bankers Assn.:

"Any society operating accounts in this manner is clearly evading the law."

Laylin said the measure heard yesterday, sponsored by Sen. Charles A. Mosher (R-Lorain), is backed by the Ohio Bankers Assn.

Sponsor of the other bill, set for future hearing, is Sen. William H. Deddens (R-Hamilton). His bill would expand the permissible business of mutual societies.

One of Laylin's principal complaints was that while nine Cleveland commercial banks paid nearly 23½ million dollars in federal income taxes in 1953, the Cleveland Society for Savings paid nothing. The Cleveland society, he said, had approximately 10 per cent of the assets of all the banks.

Laylin declared the Cleveland society got into the checking account business in 1938 through a "gentleman's agreement" with the state superintendent of banking. Under questioning, he said the bankers association has not objected until now because there was no great growth in the Cleveland society's checking account business until 1952.

He added the mutual societies have grown in their legitimate fields and, "with their special privileges and with competent management, they will continue to grow and prosper under the restrictions which this bill would redefine."

1953 Pie-Baking Queen Dies At 19

SANDUSKY (AP) — Ohio's 1953 cherry pie baking queen, 19-year-old Mrs. Rolland W. Hemmer, died yesterday in Providence Hospital after a short illness.

In 1953, when she was Virginia Kaltenbach, she represented Ohio in the national cherry pie baking contest in Chicago.

The word "protein" comes from a Greek verb which means "to come first". This might suggest that we go first to the protein rich foods when we shop, or plan and prepare our daily bread!"

There is an abundance of chemistry in the protein constituents in food which are collectively classified as "building stones". The contents of these stones are: carbon, hydrogen, oxygen, nitrogen, usually phosphorus, and frequently sulphur.

In the human mechanism, no provision is made for storing excess proteins. Therefore an excess—as well as an insufficient—intake can be harmful. If no protein were eaten, the tissues would starve to death, even though plenty of fat were available for food supply.

An important fact to remember is that milk, eggs, and meat are complete protein and should therefore be included in our daily diet.

Cheese is one of the earliest ways devised for preserving the food constituents of milk. (It is made by compressing the curd, obtained when milk is coagulated by rennin and then allowing it to "ripen" through the action of micro-organisms. As an art, cheesemaking is 1,000 years old. As an industry it is 104 years old.

* * *

Today, most American households are familiar with, not one or two, but dozens of different cheese varieties packaged in literally hundreds of different ways, suitable for every possible menu. There are more than 400 different cheeses, but only about 18 distinct types or kinds of natural cheese. Nearly 80 percent of all the cheese products is American (cheddar) cheese.

A statement from the USDA reveals that the total stock of cheese in cold storage January 1 was 26 per cent larger than a year ago. The report also pointed out that per capita consumption of cheese, at 10 pounds per person, is nearly twice as high as it was 20 years ago.

However, total milk production has been increasing rapidly during the same period, and as a result, more milk is going into the production of cheese.

The federal government supports the price paid to producers for milk which is used in making cheese, butter and other manufactured milk products. This support program is carried out through government purchase of cheese, butter, and skim milk powder. It is aimed toward absorbing milk when not needed for normal demands during the season of flush production (cows produce more milk in spring and early summer), so that adequate supplies of fluid milk will be available during the balance of the year.

* * *

To some extent, this is the reason why cheese and butter prices do not decline as much as might be expected during periods of peak prdouction. The net effect of such a procedure is that retail prices of cheese, butter and other manufactured dairy products remain at levels which reflect more favorable returns to producers.

At present reduced prices cheese represents one of our most economical sources of protein and concentrated fuel food. It is one of our best food buys economically as well as nutritionally. It provides about twice as much food value for the money as meat, and—one pound of American or Cheddar cheese has 1 1-2 times as much protein as the same amount of lean meat.

So, let's all go shopping for cheese and exercise several of the many culinary formulas available for utilizing one or more of the many varieties of this valuable nutrient.

Fairfield County Licenses Recalled

COLUMBUS (AP)—Inverted "M" car license plates for Fairfield County have been called in.

Highway Safety Director U. C. Felty ordered all the unsold plates returned, and said motorists who have purchased the faulty tags will be contacted and given new ones.

Some 8,998 plates produced at Ohio Penitentiary were mistakenly made with an upside-down "M" instead of a "W", the Fairfield County designation. Felty said the inverted "M" looks something like an "H" from a distance.

Thugs Pilfer Only Lunchbox

MEDINA (AP)—Thomas Scott, a Mansfield painter, told state highway patrolmen yesterday that three armed men forced their way into his automobile while he was stopping for a traffic light in Mansfield.

The three spoke in a "strange language" and left the car three miles north of here on U. S. 42, Scott said. The men took only a match and a banana from Scott's lunchbox.

Rooming House Fire Kills Trio

SAN RAFAEL, Calif. (AP)—Three persons died and eight were injured in a rooming house fire early yesterday.

Stranded Truckers Get Skimpy Diet

LANDER, Wyo. (AP)—Two truck drivers went on an orange and celery diet after their truck stalled on the snowbound South Pass Highway.

Harvey Thomas and his brother of Salt Lake City found shelter in a State Highway Department dugout housing a rotary snowplow near Rock Creek. There they stayed two days and nights while waiting for snowplows to open the road.

They had plenty to eat but little variety. Their produce truck was loaded with nothing but oranges and celery.

Mrs. Daisy Loveday Lewis, 74, born in England, is paralyzed in the right side and could not go to court.

Use the cooking water from vegetables in soups or gravies; or add it to a tomato juice cocktail.

Xavier Professors Given Pay Boost

CINCINNATI (AP)—Lay professors at Xavier University yesterday received a pay increase of $500 a year. The Rev. James F. Maguire, university president, said the university's ability to obtain sufficient gifts would be the determining factor in keeping the increased pay in effect annually.

Father Maguire reported Xavier already has raised more than $100,000 of a $300,000 goal for 1955.

Stranded Truckers Get Skimpy Diet

LANDER, Wyo. (AP)—Two truck drivers went on an orange and celery diet after their truck stalled on the snowbound South Pass Highway.

Harvey Thomas and his brother of Salt Lake City found shelter in a State Highway Department dugout housing a rotary snowplow near Rock Creek. There they stayed two days and nights while waiting for snowplows to open the road.

They had plenty to eat but little variety. Their produce truck was loaded with nothing but oranges and celery.

New Citizen Aided

NORTHFIELD, N.J. (AP) — The four-man Atlantic County Naturalization Court traveled 12 miles from the county seat at Mays Landing to administer the oath of citizenship to a chipper, bedridden old lady. Mrs. Daisy Loveday Lewis, 74, born in England, is paralyzed in the right side and could not go to court.

Use the cooking water from vegetables in soups or gravies; or add it to a tomato juice cocktail.

Xavier Professors Given Pay Boost

CINCINNATI (AP)—Lay professors at Xavier University yesterday received a pay increase of $500 a year. The Rev. James F. Maguire, university president, said the university's ability to obtain sufficient gifts would be the determining factor in keeping the increased pay in effect annually.

Father Maguire reported Xavier already has raised more than $100,000 of a $300,000 goal for 1955.

WASHINGTON (AP)—No one has summed up better the peril of mankind in the atomic age than Sir Winston Churchill in a recent speech to the House of Commons on the terrors of the hydrogen bomb.

Churchill's own lifetime spans the transition from the old-fashioned soldier—who, on foot or on horseback, could try to kill only one or a few of the enemy at a time—to the soldier of today who can rain down death on millions from the sky.

Being a man of action and not finding it soon enough, there was a period in his early days when he thought it a "pity that it all had to be make-believe" and that wars between nations had come to an end.

He had overestimated the ability of nations to settle things peacefully. He had his first military service, a dull one, with the British cavalry in India in 1895. He lived to have a hand in directing two world wars.

In World War II the weapons the antagonists produced—until the 1945 atomic bomb explosion—were the peak of all man's efforts to devise instruments for eliminating human beings.

In that half century between 1895 and 1945 Churchill saw weapons progress, if that's the right word, from rifle and cavalry to machine guns, tanks, bazookas and even planes that dropped conventional TNT on factories and battlefields.

India may have been dull for him in the 19th century. He didn't regard as dull the somber days of 1940 when the Germans had overrun Western Europe, were smashing Britain with their stukas, and threatened to invade the British Isles.

Knowing fully the power of the Nazi armament, Churchill looked across the English Channel and, undaunted, told his countrymen: "We shall defend our island. Whatever the cost may be, we shall fight on the beaches . . . in the fields . . . streets . . . hills; we shall never surrender."

That was 15 years ago. Since that time the United States and Russia have developed the greatest of all weapons—the hydrogen bomb. And on Feb. 15 the U.S. Atomic Energy Commission issued a report. It said the radioactive fallout from an H-bomb could cover an area almost as big as New Jersey.

Last week Churchill spoke to his countrymen again, this time in the House of Commons. He said nothing then about fighting on hills or beaches or in the streets. He talked of the power of the bomb. The age of man-to-man fighting had long since passed. Now a few men in planes, releasing bombs, could destroy a nation.

And Churchill, like a man cornered and searching for some escape for mankind itself, said: "What ought we to do? Which way shall we turn to save our lives and the future of the world?"

Then, still undaunted, after reviewing the American and Russian achievements with the new bombs, Churchill made it plain Britain wasn't going to sit like a duck on a rock if a hydrogen war started.

He wanted in on that too. He said Britain would make hydrogen bombs.

Ohioan Gets Nod As FCC Chairman

WASHINGTON (AP) — The Senate Commerce Committee has approved President Eisenhower's nomination of George C. McConnaughey of Ohio to be chairman of the Federal Communications Commission (FCC).

There was no objection to sending the nomination to the Senate floor but committee members reserved the right to oppose it there.

The 50-year-old one - time Ohio utility lawyer has been acting FCC chairman since last Oct. 4 when Eisenhower gave him a recess appointment and designated him chairman.

McConnaughey served as chairman of the Ohio public utilities commission.

Personality Trait Tied To Friends

COLUMBUS (AP)—An Ohio State University professor of rural sociology says personality or mental health for an individual "seems to depend largely on the way one sees himself in relation to other significant persons in his life."

Dr. A. Raymond Mangus says a person "sees himself as a person in need of love, affection, security, appreciation and others as persons able and willing to give him these intangible but real goods, his happiness is insured and his personality is enhanced.

"If, by contrast, he comes to view other significant persons as indifferent, unloving, rejecting or hostile he is apt to develop very shaky feelings about himself."

Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Pope To Address Lenten Preachers

VATICAN CITY (AP)—Pope Pius XII appeared briefly at a window of his apartment yesterday and blessed groups of tourists gathered in St. Peter's Square.

A sharp wind was blowing. The 79-year-old head of the Roman Catholic Church remained at the window only long enough to give his blessing. Then he stepped back into his studio.

Today, in one of his first speeches since he fell gravely ill last December, the pope will address Lenten season preachers and priests of the Rome diocese.

Weekly Food Review

Pork, bacon and ham will lead the parade of bargain specials on many of the nation's meat counters this weekend.

Produce departments will feature potatoes and cabbage, thus completing the list of major ingredients for a ham-and-cabbage Sunday dinner.

Pork prices are the lowest they have been in months. In some cities they've tumbled as much as six cents a pound since Saturday. One of the big food chains is headlining roast pork at 27 cents a pound (for the rib end). And in some cities you can buy top grade, fancy boneless hams for as little as 83 cents a pound.

Bargains in pork, bacon and ham at retail reflect depressed prices in major livestock markets. Right now, hogs are selling at the lowest prices since rationing ended after World War II. Hog prices usually go up when the weather gets hot and this year won't be any exception, livestock traders say. But all indications are that they'll still be substantially below 1954 levels.

Week-end meat specials aren't confined to ham and pork. You'll also find such items as veal shoulder roast, fricasse fowl and small turkeys at reduced prices. For lenten menus there are specials this weekend on haddock, halibut, oysters, shrimp, canned tuna and frozen fish sticks. Beef prices are up in some areas; down in others; lamb mostly unchanged or a little higher.

Outtsanding buys on vegetable counters are pretty well limited to staples like potatoes, onions, cabbage (both old and new) and escarole. Listed as "good buys" by U.S. Department of Agriculture marketing specialists are beans, pascal (green) celery, topped carrots, endive, sweet potatoes and green squash.

Strawberries (mostly Florida-grown) are beginning to show up in northern food stores; supplies are ample enough to make them a reasonably good buy. Seedless grapefruit, and oranges (including the popular "temple" and "valencia" varieties) are plentiful and moderately priced. Lovers of iron-rich greens can find the season's first chicoria (from South Carolina) and andelion greens (from southern New Jersey) in big-city markets.

Egg prices moved higher again this week. Advances ranging from one to two cents a dozen on large grade-a whites were reported in New York, Jacksonville, Pittsburgh and Chicago. Prices may turn down again next month when the hens are expected to increase their production.

The Chinese discovered natural gas as early as 940 B.C., and were piping it through hollow bamboo rods to evaporate brine to produce salt.

Arabic Nations Plan Conference

DAMASCUS, Syria (AP)—Representatives from Syria, Lebanon and Iraq will meet tomorrow in Beirut, Lebanon, to discuss ways of avoiding a split in the Arab world, according to well-informed sources. Iraq recently ignored strong protests from Egypt and concluded a defense pact with Turkey, which is aligned with the West. Egypt has advocated a neutral stand by Arab nations in the cold war.

For lenten menus there are specials this weekend on haddock, halibut, oysters, shrimp, canned tuna and frozen fish sticks. Beef prices are up in some areas; down in others; lamb mostly unchanged or a little higher.

Outstanding buys on vegetable counters are pretty well limited to staples like potatoes, onions, cabbage (both old and new) and escarole. Listed as "good buys" by U.S. Department of Agriculture marketing specialists are beans, pascal (green) celery, topped carrots, endive, sweet potatoes and green squash.

Strawberries (mostly Florida-grown) are beginning to show up in northern food stores; supplies are ample enough to make them a reasonably good buy. Seedless grapefruit, and oranges (including the popular "temple" and "valencia" varieties) are plentiful and moderately priced. Lovers of iron-rich greens can find the season's first chicoria (from South Carolina) and andelion greens (from southern New Jersey) in big-city markets.

Egg prices moved higher again this week. Advances ranging from one to two cents a dozen on large grade-a whites were reported in New York, Jacksonville, Pittsburgh and Chicago. Prices may turn down again next month when the hens are expected to increase their production.

The Chinese discovered natural gas as early as 940 B.C., and were piping it through hollow bamboo rods to evaporate brine to produce salt.

Arabic Nations Plan Conference

DAMASCUS, Syria (AP)—Representatives from Syria, Lebanon and Iraq will meet tomorrow in Beirut, Lebanon, to discuss ways of avoiding a split in the Arab world, according to well-informed sources. Iraq recently ignored strong protests from Egypt and concluded a defense pact with Turkey, which is aligned with the West. Egypt has advocated a neutral stand by Arab nations in the cold war.

WAY TO UNDERSTANDING

WHAT THE WORLD needs, as has been reiterated since the beginning of time, is better understanding between nations, a goal toward which the government of the United States continues to strive with not too great success.

It is charged at time, among other things, that actions of U. S. military forces abroad have been offensive, especially in England and Germany. This seems to be refuted by the story of Sergt. Jack Lyons, who left Oxfordshire, England, where he had been stationed for three years. The entire population of the village, 420 persons, turned out to bid the family goodbye, and there were tears in many eyes.

Sergt. Lyons became a leader in the activities of the village, collected hundreds of pounds for local charities, organized parties for the children, became a Boy Scout leader, built a sports pavilion, and contributed in many other ways to making life pleasant.

"If I have helped to prove that two nations can get to know one another better and find out how the other lives, then I am pleased," he declared.

What the world needs is more men like Sergt. Lyons. Finding out how others live is the first big step toward understanding. American dealings with other nations are well meant, but perhaps give the impression of superiority. Sergt. Lyons won the hearts of the English people by becoming one of them. There is no better way.

SMOG OF WORDS

THE FIRST International Congress on Air Pollution in New York under the sponsorship of the American Society of Mechanical Engineers, has ended. The situation and problem was stated for the delegates by Dr. Leslie Silverman, an expert from the Harvard School of Public Health. This he did in the following words:

"We are fast approaching the time when atmospheric dilution and dispersion of contaminants no longer can be done when communities lie close to facilities; like the attitude prevailing about atomic warfare, namely, no place to hide, the philosophy of building tall stacks in areas without a community nearby is reaching a similar status."

This utterance by one of their distinguished colleagues gives the engineers a first-class starting point. Let them advance upon Dr. Silverman's statement and attempt to remove the contaminants and dilutions from it, thereby to disperse it.

Paul Revere is credited with saving the country by riding a borrowed horse. Now we are trying to save everything with borrowed money.

George E. Sokolsky's

These Days

General Douglas MacArthur, in his brilliant address at Los Angeles recently, quoted a lovely ode to youth attributed to a poet, apparently unknown. I was interested in the poet's anonymity. So, I found this gem in "The Silver Treasury," a book of prose and verse for every mood, compiled by Jane Manner and published by Samuel French in 1934. The author was Samuel Ullman.

Never having heard of Samuel Ullman and intrigued by his lively English, I traced him down and found that he had been born in Alsace in 1840—came to this country as a boy, arriving in New Orleans, fought in the Civil War in the 16th Infantry Regiment of Mississippi, was wounded twice, settled in Natchez, married Emma Mayer, moved to the new city of Birmingham, Alabama in the 1880's where he lived until his death in 1924.

Samuel Ullman was a merchant with a penchant for public service. He became a member of the Board of Education in 1884 and for many years served as its President and served as an alderman in Birmingham from 1895 to 1897. He helped to organize Temple Emanuel in Birmingham and for three years served as its lay-rabbi. One of his daughters married Rabbi Morris Newfield who was his successor at the Birmingham temple. A high school is named after Samuel Ullman in Birmingham.

In his seventies, Ullman retired from business, travelled considerably and wrote poetry. On the occasion of his 80th birthday, in 1920, his family and relatives, perhaps a hundred of them, gathered at his home in Birmingham to do him honor. His poems had been collected and privately printed in a volume entitled, "From a Summit of Years—Four Score."

The essay on youth, which General MacArthur quoted in his speech, is the opening contribution to this volume. Some years ago, it was reprinted in "This Week" anonymously and in the "Reader's Digest' which gave him credit. I am here giving it as it appears in his own collection of writings:

"Youth is not a time of life; it is a state of mind; it is not a matter of rosy cheeks, red lips and supple knees; it is a matter of the will, a quality of the imagination, a vigor of the emotions; it is the freshness of the deep springs of life.

"Youth means the temperamental predominance of courage over timidity of the appetite, for adventure over the love of ease. This often exists in a man of sixty more than a boy of twenty. Nobody grows old merely by a number of years. We grow old by deserting our ideals.

'Years may wrinkle the skin, but to give up enthusiasm wrinkles the soul. Worry, fear, self-distrust bows the heart and turns the spirit back to dust.

"Whether sixty or sixteen, there is in every human being's heart the lure of wonder, the unfailing child-like appetite of what's next, and the joy of the game of living. In the center of your heart and my heart there is a wireless station; so long as it receives messages of beauty, hope, cheer, courage and power from men and from the Infinite, so long are you young.

Getting That Bald Pate Can Often Be Postponed

By HERMAN N. BUNDESEN, M.D.

PREMATURE or senile baldness is often mistakenly blamed by many persons for all types of baldness.

Maybe your baldness is actually due to alopecia seborrheica, or alopecia symptomatica.

What Can Be Done?

Now I know you're not especially interested in these scientific terms. You'd rather know how these types of baldness can affect you, and what can be done to prevent or cure them.

Well, maybe we can help you a little but don't get your hopes up too much.

If you are a victim of seborrheica, you will lose your hair slowly. Usually, the loss is symmetrical. The hair on top of your head disappears first. Eventually, that over the temples goes too.

Your scalp will itch, and there will probably be scaling. In time, though, your scalp will become smooth, as the hair roots, or follicles, and the fat glands in your scalp waste away.

While this condition is more prevalent in older persons, sometimes young adults who are normal in every other way are stricken by alopecia seborrheica. This condition seems to run in families, but, unfortunately, as in many types of baldness, we don't know what causes it.

Outlook Not Good

In general, the outlook for doing anything to restore your hair is not very good, but sometimes the balding process can be slowed down. Proper care of your hair, adequate washing, massaging and brushing might be helpful.

In alopecia symptomatica, however, brushing and massage might do more harm than good, if you begin too early. You'll have to wait until your hair is strong enough to benefit from such action.

Alopecia symptomatica is a type of baldness that is premature, due to a condition or a disease in your system. In women, it occurs most frequently after childbirth. It might follow operations of any sort in either men or women.

First Symptoms

Usually, the first symptoms develop three to four months after an operation. Sometimes it also comes in the wake of typhoid fever or other exhaustive sicknesses. Worry, strenuous work, not enough sleep and poor eating habits might leave you in an exhausted or nervous physical condition which in turn might be followed by alopecia symptomatica.

This type of baldness has two characteristic features: hair will fall out all over the head, on the top, in the back and on the sides; and hair will be dry and lusterless. Hair can be pulled out by the handfuls.

Medical Tests

Your physician should take your blood count and give you a basal metabolism test.

Applying remedies to your scalp won't do much good. But you might get pretty good results if your doctor prescribes intramuscular injections of crude liver extract along with vitamin B_{12}. Ordinarily, the injections should be given twice a week for about six to eight weeks.

If the hair begins to grow again, and becomes strong, then massage and washing might be good for it.

Tomorrow, I'll discuss heredity and hats.

QUESTION AND ANSWER

M.L.: What causes my tongue constantly to burn? Is there any cure for this condition?

Answer: Burning of the tongue is usually due to infection. An examination of the mouth and nose should be made to determine what disorders are present; then proper treatment can be given.

CHAPTER TWENTY-NINE

OTHERS seemed to be of the same opinion as Murphy—that the hearing would be interesting. Next morning, the police courtroom was packed.

Fred had been called out at five a. m., and it was a little after nine when he hurried into the courtroom. He looked about, assured himself that Katie and Ludmilla were not there and nodded with satisfaction as he took the chair pointed out to him. The rest of the crowd didn't matter — Mirandy, Murphy—but Katie and his mother would be hurt by each charge made or suggested against Fred. He was glad they were not present.

Poor little Nienaber sat, white-faced, beside Ed Byrd.

Things got under way. Ed Byrd put on his glasses and made a speech covering the charge against Dr. Beier. Then he took off his glasses and read the charge, which repeated the subject of his speech.

The audience whispered and gasped, and peered over shoulders, to look at the doctor who was so familiar to all of them. A lawyer stood beside him.

Richard Nienaber, seated in the first row of chairs, valiantly endeavored to listen. His eyes lit up at Fred's name, his whole person shrank into his clothing when his own was said.

Fred watched the little man, hoping for a chance to encourage him with his own calm glance. But, of course, he realized that the poor fellow was understanding nothing except that once again he was in the dread grasp of authority.

When Byrd finally ended, and offered to call his witnesses, the judge took over. "Suppose we get quickly to the root of this, Mr. Byrd. We've some busy people here. Ah—will Richard Nienaber take the witness chair?"

With the help of prodding and gestures, Nienaber managed to do this. But by then his excitement and terror had driven his small store of English completely from his mind, and he could only sit wide-eyed, white-faced, uncomprehending. The judge talked slowly —and ever more loudly—

Presently, Fred got to his feet. "Please, your honor?"

"Yes, Dr. Beier?" The judge looked exhausted.

"Nienaber is frightened, and he has very little English to start with. If you would allow me to serve as interpreter . . . ?"

Murphy Hudson threw his long hands out in a gesture of complete surrender. Seeing it, little crinkles webbed out from Fred's eyes.

"I am sure Nienaber understood nothing of the charge, your honor. Perhaps I should begin by translating it to him."

"Do you speak German well enough to do that, Dr. Beier?"

"I speak German like a native," said Fred dryly.

"All right, then. Proceed."

The judge, the audience, listened to the flood of gutturals which poured from Fred's lips. They saw Nienaber's start of surprise, they heard his horrified, *"Nein, Nein!"* and then saw the look of actual indignation which he cast at the judge.

Fred touched the man's knee. *"Na, na . . ."* he said softly. "In this country," he went on, in German, "a man is permitted to prove his innocence. Or, rather, his guilt has to be proven."

The judge leaned forward. "What did you say to him, doc?"

Fred translated, word for word. The judge nodded, and looked sternly out across the courtroom. "Let all the good Americans here take note of that! Er—Dr. Beier?"

"Yes, sir?"

"How does it happen you speak German so well?"

Quickly Fred repeated the question to Nienaber, quickly he answered the judge. "I am a refugee also, your honor." When he said this to Nienaber, the little man's face lit up as with a hundred candles, and the stooped shoulders straightened.

Fred elaborated upon his statement, his own back straight, and his head up. People began to smile, and then to look ashamed. Almost at once, wrathful glances were being cast at poor Ed Byrd. Mirandy began to smile and whisper to the people about her. The judge told her to be still—and several laughed aloud.

Fred suggested that the judge put his questions to Nienaber. "I think this whole thing can be straightened out most quickly that way—of course you're going to have to trust my honesty in interpreting the answers, sir."

"We do trust you, doctor," said the judge soberly. Murphy shook his black head from side to side. No one would believe him if he ever tried to tell about this—this farce. It was one! He could see that, if no one else did. He began to cast about for phrasing which would adequately present this situation to more sophisticated imaginations. "There was Fred, accused of kidnaping—it can mean a death penalty, you know—and the judge starts out by declaring his complete confidence in the defendant!" He broke off his meditations to consider a flurry near the door. The judge looked inquiringly at the officer there.

This man hurried forward; the judge beckoned to Fred, and everyone strained his ears. At the name *Kyle,* Murphy stood up and pushed past the other spectators to Fred's side. "Oh, Murph!" said Fred, gratefully. "Something has come up at Kyle's. They've sent for me to come at once."

"And you want me to answer that call. I'll be glad to."

"Yes. I'll get this thing cleared up and come as quickly as I can. Here, take my keys. I'll have someone drive me over when I'm free."

NATIONAL WHIRLIGIG
news behind the news

By Ray Tucker

WASHINGTON — The demand for federal supervision and periodical examination of labor union's welfare funds has been strengthened as a result of their alleged use in Louis E. Wolfson's attempt to obtain control of Montgomery Ward Company from Sewell L. Avery, present head of the mail-order house.

Dave Beck's International Brotherhood of Teamsters has already bought $1 million worth of M-W stock, and he has announced that he expects to buy at least another million. Smaller unions are reported to have made a similar investment, and to have urged individual members to buy.

Montgomery Ward has liquid assets of $300 million and if Wolfson follows his usual practice of distributing reserves in immediate dividends, Beck and his associates will make a killing.

The Florida capitalist pursued this method when he won control of Washington's transit system, handing out funds that had been built up for improvement of the service. As a result, there have been suggestions that the federal government take over the trolleys and bus lines.

SENATOR—A trustee of the Teamsters' welfare fund is James B. Hoffa of Detroit, who is also a vice-president of the union. In fact, Hoffa is regarded as the real boss of the organization. He has had several encounters with local and federal courts for alleged use of violence in compelling workers to join unions against their will.

Sen. Homer E. Capehart of Indiana will cite these facts in support of his measure to force publication of the names of proxy holders in fights for control of great corporations. The Indiana senator also charges that underworld interests are buying into many key industries.

There were 28 proxy battles in 1954 alone, involving great industries and billions of dollars, with no publicity with regard to the ownership of vast blocs of stock. The Hoosierite believes that this secrecy constitutes a serious threat to future control of the nation's economic system.

* * *

UNION AIMS—The teamsters' union is now striving to obtain a union shop contract for more than 10,000 Montgomery Ward employes. A rugged individualist, Avery has opposed unionization. But, as fairly large stockholders, the unions will occupy a strategic position in future dealings with M-W management.

Hoffa's strong - arm unionization tactics have led him into frequent encounters with local and federal courts, as well as with state and congressional investigating committees. They revealed that in 1947 he paid a fine in Detroit for violating a state law by forcing members to join a union.

In 1947, he pleaded nolo contendre to a Federal charge that he forced dealers and mills to do business with unions in which he had an interest.

* * *

ORGANIZATION—He has had other connections that attracted the investigators' attention. It was developed that he and another teamster official in Chicago, through their wives, organized a company known as Test Fleet with a capital of $4,000. Test Fleet leased equipment to the Commercial Carriers Corporation, which hauled Cadillacs and had a contract with Hoffa's union.

Test Fleet had only one employe, a bookkeeper. But it paid dividends of $64,000 in four years. There were no strikes by members of Hoffa's union against Commercial Carriers during this period.

* * *

SUSPICIOUS — Hoffa's relationship with the Union Casualty Company of New York, which insures several welfare funds, has drawn the fire of New York legislative ivestigators. Evidence showed that somebody was making a killing through kickbacks or similar devices. The insurance company's take, which paid for profits, commissions, and administrative expenses, reached the extremely high figure of 17½ per cent.

Capehart makes no curbstone indictment of anybody on the basis of these admissions and revelations. He does not know for certain that the Beck-Hoffa group will vote with Avery or Wolfson, although he has his suspicions. But he does believe that the loose and secretive handling of welfare funds built up by workers' and employers' contributions has become a subject for congressional study and possible control.

There is no better way.

SMOG OF WORDS

THE FIRST International Congress on Air Pollution in New York under the sponsorship of the American Society of Mechanical Engineers, has ended. The situation and problem was stated for the delegates by Dr. Leslie Silverman, an expert from the Harvard School of Public Health. This he did in the following words:

"We are fast approaching the time when atmospheric dilution and dispersion of contaminants no longer can be done when communities lie close to facilities; like the attitude prevailing about atomic warfare, namely, no place to hide, the philosophy of building tall stacks in areas without a community nearby is reaching a similar status."

This utterance by one of their distinguished colleagues gives the engineers a first-class starting point. Let them advance upon Dr. Silverman's statement and attempt to remove the contaminants and dilutions from it, thereby to disperse it.

Paul Revere is credited with saving the country by riding a borrowed horse. Now we are trying to save everything with borrowed money.

George E. Sokolsky's

These Days

General Douglas MacArthur, in his brilliant address at Los Angeles recently, quoted a lovely ode to youth attributed to a poet, apparently unknown. I was interested in the poet's anonymity. So, I found this gem in "The Silver Treasury," a book of prose and verse for every mood, compiled by Jane Manner and published by Samuel French in 1934. The author was Samuel Ullman.

Never having heard of Samuel Ullman and intrigued by his lively English, I traced him down and found that he had been born in Alsace in 1840—came to this country as a boy, arriving in New Orleans, fought in the Civil War in the 16th Infantry Regiment of Mississippi, was wounded twice, settled in Natchez, married Emma Mayer, moved to the new city of Birmingham, Alabama in the 1880's where he lived until his death in 1924.

Samuel Ullman was a merchant with a penchant for public service. He became a member of the Board of Education in 1884 and for many years served as its President and served as an alderman in Birmingham from 1895 to 1897. He helped to organize Temple Emanuel in Birmingham and for three years served as its lay-rabbi. One of his daughters married Rabbi Morris Newfield who was his successor at the Birmingham temple. A high school is named after Samuel Ullman in Birmingham.

In his seventies, Ullman retired from business, travelled considerably and wrote poetry. On the occasion of his 80th birthday, in 1920, his family and relatives, perhaps a hundred of them, gathered at his home in Birmingham to do him honor. His poems had been collected and privately printed in a volume entitled, "From a Summit of Years—Four Score."

The essay on youth, which General MacArthur quoted in his speech, is the opening contribution to this volume. Some years ago, it was reprinted in "This Week" anonymously and in the "Reader's Digest' which gave him credit. I am here giving it as it appears in his own collection of writings:

"Youth is not a time of life; it is a state of mind; it is not a matter of rosy cheeks, red lips and supple knees; it is a matter of the will, a quality of the imagination, a vigor of the emotions; it is the freshness of the deep springs of life.

"Youth means the temperamental predominance of courage over timidity of the appetite, for adventure over the love of ease. This often exists in a man of sixty more than a boy of twenty. Nobody grows old merely by a number of years. We grow old by deserting our ideals.

'Years may wrinkle the skin, but to give up enthusiasm wrinkles the soul. Worry, fear, self-distrust bows the heart and turns the spirit back to dust.

"Whether sixty or sixteen, there is in every human being's heart the lure of wonder, the unfailing child-like appetite of what's next, and the joy of the game of living. In the center of your heart and my heart there is a wireless station; so long as it receives messages of beauty, hope, cheer, courage and power from men and from the Infinite, so long are you young.

Getting That Bald Pate Can Often Be Postponed

By HERMAN N. BUNDESEN, M.D.

PREMATURE or senile baldness is often mistakenly blamed by many persons for all types of baldness.

Maybe your baldness is actually due to alopecia seborrheica, or alopecia symptomatica.

What Can Be Done?

Now I know you're not especially interested in these scientific terms. You'd rather know how these types of baldness can affect you, and what can be done to prevent or cure them.

Well, maybe we can help you a little but don't get your hopes up too much.

If you are a victim of seborrheica, you will lose your hair slowly. Usually, the loss is symmetrical. The hair on top of your head disappears first. Eventually, that over the temples goes too.

Your scalp will itch, and there will probably be scaling. In time, though, your scalp will become smooth, as the hair roots, or follicles, and the fat glands in your scalp waste away.

While this condition is more prevalent in older persons, sometimes young adults who are normal in every other way are stricken by alopecia seborrheica. This condition seems to run in families, but, unfortunately, as in many types of baldness, we don't know what causes it.

Outlook Not Good

In general, the outlook for doing anything to restore your hair is not very good, but sometimes the balding process can be slowed down. Proper care of your hair, adequate washing, massaging and brushing might be helpful.

In alopecia symptomatica, however, brushing and massage might do more harm than good, if you begin too early. You'll have to wait until your hair is strong enough to benefit from such action.

Alopecia symptomatica is a type of baldness that is premature, due to a condition or a disease in your system. In women, it occurs most frequently after childbirth. It might follow operations of any sort in either men or women.

First Symptoms

Usually, the first symptoms develop three to four months after an operation. Sometimes it also comes in the wake of typhoid fever or other exhaustive sicknesses. Worry, strenuous work, not enough sleep and poor eating habits might leave you in an exhausted or nervous physical condition which in turn might be followed by alopecia symptomatica.

This type of baldness has two characteristic features: hair will fall out all over the head, on the top, in the back and on the sides; and hair will be dry and lusterless. Hair can be pulled out by the handfuls.

Medical Tests

Your physician should take your blood count and give you a basal metabolism test.

Applying remedies to your scalp won't do much good. But you might get pretty good results if your doctor prescribes intramuscular injections of crude liver extract along with vitamin B_{12}. Ordinarily, the injections should be given twice a week for about six to eight weeks.

If the hair begins to grow again, and becomes strong, then massage and washing might be good for it.

Tomorrow, I'll discuss heredity and hats.

QUESTION AND ANSWER

M.L.: What causes my tongue constantly to burn? Is there any cure for this condition?

Answer: Burning of the tongue is usually due to infection. An examination of the mouth and nose should be made to determine what disorders are present; then proper treatment can be given.

CHAPTER TWENTY-NINE

OTHERS seemed to be of the same opinion as Murphy—that the hearing would be interesting. Next morning, the police courtroom was packed.

Fred had been called out at five a. m., and it was a little after nine when he hurried into the courtroom. He looked about, assured himself that Katie and Ludmilla were not there and nodded with satisfaction as he took the chair pointed out to him. The rest of the crowd didn't matter — Mirandy, Murphy—but Katie and his mother would be hurt by each charge made or suggested against Fred. He was glad they were not present.

Poor little Nienaber sat, white-faced, beside Ed Byrd.

Things got under way. Ed Byrd put on his glasses and made a speech covering the charge against Dr. Beier. Then he took off his glasses and read the charge, which repeated the subject of his speech.

The audience whispered and gasped, and peered over shoulders, to look at the doctor who was so familiar to all of them. A lawyer stood beside him.

Richard Nienaber, seated in the first row of chairs, valiantly endeavored to listen. His eyes lit up at Fred's name, his whole person shrank into his clothing when his own was said.

Fred watched the little man, hoping for a chance to encourage him with his own calm glance. But, of course, he realized that the poor fellow was understanding nothing except that once again he was in the dread grasp of authority.

When Byrd finally ended, and offered to call his witnesses, the judge took over. "Suppose we get quickly to the root of this, Mr. Byrd. We've some busy people here. Ah—will Richard Nienaber take the witness chair?"

With the help of prodding and gestures, Nienaber managed to do this. But by then his excitement and terror had driven his small store of English completely from his mind, and he could only sit wide-eyed, white-faced, uncomprehending. The judge talked slowly—and ever more loudly—

Presently, Fred got to his feet. "Please, your honor?"

"Yes, Dr. Beier?" The judge looked exhausted.

"Nienaber is frightened, and he has very little English to start with. If you would allow me to serve as interpreter . . . ?"

Murphy Hudson threw his long hands out in a gesture of complete surrender. Seeing it, little crinkles webbed out from Fred's eyes.

"I am sure Nienaber understood nothing of the charge, your honor. Perhaps I should begin by translating it to him."

"Do you speak German well enough to do that, Dr. Beier?"

"I speak German like a native," said Fred dryly.

"All right, then. Proceed."

The judge, the audience, listened to the flood of gutturals which poured from Fred's lips. They saw Nienaber's start of surprise, they heard his horrified, *"Nein, Nein!"* and then saw the look of actual indignation which he cast at the judge.

Fred touched the man's knee. *"Na, na . . ."* he said softly. "In this country," he went on, in German, "a man is permitted to prove his innocence. Or, rather, his guilt has to be proven."

The judge leaned forward. "What did you say to him, doc?"

Fred translated, word for word. The judge nodded, and looked sternly out across the courtroom. "Let all the good Americans here take note of that! Er—Dr. Beier?"

"Yes, sir?"

"How does it happen you speak German so well?"

Quickly Fred repeated the question to Nienaber, quickly he answered the judge. "I am a refugee also, your honor." When he said this to Nienaber, the little man's face lit up as with a hundred candles, and the stooped shoulders straightened.

Fred elaborated upon his statement, his own back straight, and his head up. People began to smile, and then to look ashamed. Almost at once, wrathful glances were being cast at poor Ed Byrd. Mirandy began to smile and whisper to the people about her. The judge told her to be still—and several laughed aloud.

Fred suggested that the judge put his questions to Nienaber. "I think this whole thing can be straightened out most quickly that way—of course you're going to have to trust my honesty in interpreting the answers, sir."

"We do trust you, doctor," said the judge soberly. Murphy shook his black head from side to side. No one would believe him if he ever tried to tell about this—this farce. It was one! He could see that, if no one else did. He began to cast about for phrasing which would adequately present this situation to more sophisticated imaginations. "There was Fred, accused of kidnaping—it can mean a death penalty, you know—and the judge starts out by declaring his complete confidence in the defendant!" He broke off his meditations to consider a flurry near the door. The judge looked inquiringly at the officer there.

This man hurried forward; the judge beckoned to Fred, and everyone strained his ears. At the name *Kyle*, Murphy stood up and pushed past the other spectators to Fred's side. "Oh, Murph!" said Fred, gratefully. "Something has come up at Kyle's. They've sent for me to come at once."

"And you want me to answer that call. I'll be glad to."

"Yes. I'll get this thing cleared up and come as quickly as I can. Here, take my keys. I'll have someone drive me over when I'm free."

NATIONAL WHIRLIGIG

news behind the news

By Ray Tucker

WASHINGTON — The demand for federal supervision and periodical examination of labor union's welfare funds has been strengthened as a result of their alleged use in Louis E. Wolfson's attempt to obtain control of Montgomery Ward Company from Sewell L. Avery, present head of the mail-order house.

Dave Beck's International Brotherhood of Teamsters has already bought $1 million worth of M-W stock, and he has announced that he expects to buy at least another million. Smaller unions are reported to have made a similar investment, and to have urged individual members to buy.

Montgomery Ward has liquid assets of $300 million and if Wolfson follows his usual practice of distributing reserves in immediate dividends, Beck and his associates will make a killing.

The Florida capitalist pursued this method when he won control of Washington's transit system, handing out funds that had been built up for improvement of the service. As a result, there have been suggestions that the federal government take over the trolleys and bus lines.

SENATOR—A trustee of the Teamsters' welfare fund is James B. Hoffa of Detroit, who is also a vice-president of the union. In fact, Hoffa is regarded as the real boss of the organization. He has had several encounters with local and federal courts for alleged use of violence in compelling workers to join unions against their will.

Sen. Homer E. Capehart of Indiana will cite these facts in support of his measure to force publication of the names of proxy holders in fights for control of great corporations. The Indiana senator also charges that underworld interests are buying into many key industries.

There were 28 proxy battles in 1954 alone, involving great industries and billions of dollars, with no publicity with regard to the ownership of vast blocs of stock. The Hoosierite believes that this secrecy constitutes a serious threat to future control of the nation's economic system.

* * *

UNION AIMS—The teamsters' union is now striving to obtain a union shop contract for more than 10,000 Montgomery Ward employes. A rugged individualist, Avery has opposed unionization. But, as fairly large stockholders, the unions will occupy a strategic position in future dealings with M-W management.

Hoffa's strong - arm unionization tactics have led him into frequent encounters with local and federal courts, as well as with state and congressional investigating committees. They revealed that in 1947 he paid a fine in Detroit for violating a state law by forcing members to join a union.

In 1947, he pleaded nolo contendre to a Federal charge that he forced dealers and mills to do business with unions in which he had an interest.

* * *

ORGANIZATION—He has had other connections that attracted the investigators' attention. It was developed that he and another teamster official in Chicago, through their wives, organized a company known as Test Fleet with a capital of $4,000. Test Fleet leased equipment to the Commercial Carriers Corporation, which hauled Cadillacs and had a contract with Hoffa's union.

Test Fleet had only one employe, a bookkeeper. But it paid dividends of $64,000 in four years. There were no strikes by members of Hoffa's union against Commercial Carriers during this period.

* * *

SUSPICIOUS — Hoffa's relationship with the Union Casualty Company of New York, which insures several welfare funds, has drawn the fire of New York legislative ivestigators. Evidence showed that somebody was making a killing through kickbacks or similar devices. The insurance company's take, which paid for profits, commissions, and administrative expenses, reached the extremely high figure of 17½ per cent.

Capehart makes no curbstone indictment of anybody on the basis of these admissions and revelations. He does not know for certain that the Beck-Hoffa group will vote with Avery or Wolfson, although he has his suspicions. But he does believe that the loose and secretive handling of welfare funds built up by workers' and employers' contributions has become a subject for congressional study and possible control.

Monrovian Garden Club Has Tour Of Europe Via Slides

Sterley Croman Is Guest Speaker

Sterley Croman entertained the members of the Monrovian Garden Club with slides made during a trip to Europe last Summer by his family.

The group enjoyed the hour and one-half program, which opened with a scene, "Going Aboard the Queen Elizabeth", and closed with a view of New York Harbor as seen from the Queen Mary.

Included in the pictures were scenes taken in France, England, Scotland and Ireland. Among the many scenes were views of cathedrals, palaces and gardens, and points of interest taken from literature and history.

As the meeting opened Mrs. Ernest Sheets read several passages from the Bible pertaining to trees. The members responded to roll call by naming a flower or tree mentioned in the Bible.

Ten members responded to a request to bring flower vases to be donated to Berger Hospital. During the meeting it was voted to donate money to furnish two trees for the Johnny Appleseed Highway.

The group also voted to reimburse Mrs. Edwin Towler for materials she used in making an arrangement to be placed in the lobby of Berger Hospital. One of the club's civic projects is to keep the lobby and waiting rooms of the hospital decorated.

Invitations were extended by the Ashville Garden Club to their open meeting at 8 p. m. Thursday in the Lutheran Church and the Pic-Fay Garden Club to their open meeting at 2 p. m. March 22 in the Methodist Church in New Holland.

Mt. Sterling Garden Club has invited the Monrovian Club to accompany them on their trip by bus March 25 to the Toledo Flower Show.

Plans were made to invite all associate garden clubs in District Nine to participate in a Spring Flower Show to be sponsored by the Monrovian Club. Tentative date of the event is May 2. Details are to be completed at a later meeting.

Mrs. John Junk of the Mt. Sterling Garden Club acted as judge for church arrangements brought by the members. First place was given to Mrs. Herman Porter for her Madonna, in which she had arranged dogwood in a Hogarth curve.

Second place went to Mrs. Charles A. Fleming who had made a spring arrangement of pussywillows, yellow and purple status with large jonquils placed in a coconut spathe.

Third place was won by Mrs. Bertha Porter who had used colorful dried coxcomb, marigolds and miniature dahlias in an upright container. Honorable mention was awarded Mrs. Harold Adkins who had curved dogwood blossoms down a large cross and mingled them with the evergreen base.

The meeting was held in the home of Mrs. Herman Porter with Mrs. Lawrence Reid, Mrs. Edwin Towler and Mrs. Bertha Porter serving as co-hostesses

The next meeting is to be held April 4 in the home of Mrs. Lloyd Neff. The program will be based on Conservation.

Mrs. Brown Is Hostess To Meet Of Church Circle

A meeting of Circle 5 of Trinity Lutheran Church was held in the home of Mrs. Fred Brown of S. Court St. with 12 members and a visitor in attendance.

The session opened with singing of "The Hymn of Consecration." Mrs. Brown conducted a brief devotional service based on the Bible study for the month.

Mrs. Russell Skaggs gave an address on New Guinea Missions and urged members to attend a day of sewing March 17 in the parish house.

The meeting closed with group recitation of the Lord's Prayer. Refreshments were served by the hostess, assisted by Mrs. Lawrence McBrearty.

The next meeting will be held April 4 in the home of Mrs. John Beck of N. Court St.

Personals

Mr. and Mrs. Joe Bell have returned to their home on N. Court St. following a two-week visit in the home of Cpl. and Mrs. Walter T. Osborne and children, Vicki, Diane and Roderick, at Ramey Air Force Base, Puerto Rico. The trip was made by plane.

Pickaway County Presecutor William Ammer will be guest speaker when the Jackson Parent-Teacher Society meets at 8 p. m. Monday in the school auditorium. The subject of his address is to be "Narcotics."

Washington Grange will meet at 7:30 p. m. Friday in Washington Township school.

Wayne Township Home Demonstration group will meet from 10 a. m. to 3 p. m. Monday in the home of Mrs. Jesse Peart of Circleville Route 2. A cooperative luncheon will be enjoyed at the noon hour. The project of the session is to be time and energy management in the home.

Mother-Daughter Fete Is Planned By Church Class

Plans for a Mother-Daughter banquet to be held at 6:30 p. m. May 9 in First Methodist church were made when Mrs. Marion's Sunday School class met in the home of Mrs. Glen Hines of Park St.

Miss Benadine Yates opened the meeting with devotionals. The business session was conducted by Mrs. Clark McFarland, president, who appointed banquet committees as follows:

Reservations: Mrs. Herbert Southward, and food, Mrs. Roger Lozier.

Program and decorating: Mrs. McFarland, Mrs. Dwight Steele, Mrs. Frank Marion, Miss Ruth Stout and Mrs. Frederick Overly.

Making of programs, Mrs. Eloise Dunkel and Mrs Olan V. Boswick, and class history, Mrs. Berman Wertman.

Mrs. Boyce Parks, Mrs. Ned Griner and Miss Wilmina Phebus were appointed as a nominating committee to prepare a slate of officers for the coming year.

Games, enjoyed during a social hour, were won by Miss Stout and Mrs. Howard J. Cook.

Refreshments were served by Mrs. Hines, Mrs. George Riggin, Mrs. Forrest Brown, Mrs. Edgar McClure and Miss Yates.

Reception Fetes Donald Goellers

Mr. and Mrs. Donald Goeller, newlyweds now residing at 587 E. Franklin St. were the honored guests at a party held in the home of Dr J. E. Goeller of Circleville Route 4.

Mrs. Goeller and Mrs Forrest Short of Circleville Route 3 were co-hostesses to approximately 40 members of the immediate families of the couple for the reception.

The honored Mrs. Goeller is the former Miss Betty Binkley of Circleville.

Berger Guild 32 Elects Officers At Party Session

Berger Hospital Guild 32 was entertained by Mrs. Willison Leist and Miss Mary McClellen in the Pickaway Arms.

A perfect attendance of members was noted at the event. Election of officers was held during a short business session.

Mrs. George Hartman gave the report of a nominating committee, which was approved as follows:

Mrs. Edward Blum, chairman; Mrs. Robert Wills, contact chairman, and secretary-treasurer, Miss Ollie Sockrider.

Contests were enjoyed during a social hour, with Mrs. Frank Turner and Mrs. Maggie Morris being declared winners. Decorations on the refreshment tables were in keeping with a St. Patrick's Day theme.

Shirley Mason Is Capped At Rites At Mt. Carmel

Miss Shirley Ann Mason, daughter of Mr. and Mrs. Henry Mason of Pleasant St., was among a class of student nurses of Mt. Carmel Hospital, Columbus, who were invested with Cap and Cape at a ceremony held in St. Joseph's Cathedral.

Bishop Michael J. Ready presided at the services. The capping address was given by the Rev. Fr. James McEwan, chaplain of Ohio State University. A choir of student nurses presented several numbers during the event.

A total of 15 relatives and friends of Miss Mason, including her parents, were present from Circleville for the ceremony, which closed a period of pre-clinical study.

They also attended a reception held in the Nurses Home at 127 S. Davies Ave., following the service.

Included in the pictures were scenes taken in France, England, Scotland and Ireland. Among the many scenes were views of cathedrals, palaces and gardens, and points of interest taken from literature and history.

As the meeting opened Mrs. Ernest Sheets read several passages from the Bible pertaining to trees. The members responded to roll call by naming a flower or tree mentioned in the Bible.

Ten members responded to a request to bring flower vases to be donated to Berger Hospital. During the meeting it was voted to donate money to furnish two trees for the Johnny Appleseed Highway.

The group also voted to reimburse Mrs. Edwin Towler for materials she used in making an arrangement to be placed in the lobby of Berger Hospital. One of the club's civic projects is to keep the lobby and waiting rooms of the hospital decorated.

Invitations were extended by the Ashville Garden Club to their open meeting at 8 p. m. Thursday in the Lutheran Church and the Pic-Fay Garden Club to their open meeting at 2 p. m. March 22 in the Methodist Church in New Holland.

Mt. Sterling Garden Club has invited the Monrovian Club to accompany them on their trip by bus March 25 to the Toledo Flower Show.

Plans were made to invite all associate garden clubs in District Nine to participate in a Spring Flower Show to be sponsored by the Monrovian Club. Tentative date of the event is May 2. Details are to be completed at a later meeting.

Mrs. John Junk of the Mt. Sterling Garden Club acted as judge for church arrangements brought by the members. First place was given to Mrs. Herman Porter for her Madonna, in which she had arranged dogwood in a Hogarth curve.

Second place went to Mrs. Charles A. Fleming who had made a spring arrangement of pussywillows, yellow and purple status with large jonquils placed in a coconut spathe.

Third place was won by Mrs. Bertha Porter who had used colorful dried coxcomb, marigolds and miniature dahlias in an upright container. Honorable mention was awarded Mrs. Harold Adkins who had curved dogwood blossoms down a large cross and mingled them with the evergreen base.

The meeting was held in the home of Mrs. Herman Porter with Mrs. Lawrence Reid, Mrs. Edwin Towler and Mrs. Bertha Porter serving as co-hostesses

The next meeting is to be held April 4 in the home of Mrs. Lloyd Neff. The program will be based on Conservation.

Mrs. Brown Is Hostess To Meet Of Church Circle

A meeting of Circle 5 of Trinity Lutheran Church was held in the home of Mrs. Fred Brown of S. Court St. with 12 members and a visitor in attendance.

The session opened with singing of "The Hymn of Consecration." Mrs. Brown conducted a brief devotional service based on the Bible study for the month.

Mrs. Russell Skaggs gave an address on New Guinea Missions and urged members to attend a day of sewing March 17 in the parish house.

The meeting closed with group recitation of the Lord's Prayer. Refreshments were served by the hostess, assisted by Mrs. Lawrence McBrearty.

The next meeting will be held April 4 in the home of Mrs. John Beck of N. Court St.

Personals

Mr. and Mrs. Joe Bell have returned to their home on N. Court St. following a two-week visit in the home of Cpl. and Mrs. Walter T. Osborne and children, Vicki, Diane and Roderick, at Ramey Air Force Base, Puerto Rico. The trip was made by plane.

Pickaway County Presecutor William Ammer will be guest speaker when the Jackson Parent-Teacher Society meets at 8 p. m. Monday in the school auditorium. The subject of his address is to be "Narcotics."

Washington Grange will meet at 7:30 p. m. Friday in Washington Township school.

Wayne Township Home Demonstration group will meet from 10 a. m. to 3 p. m. Monday in the home of Mrs. Jesse Peart of Circleville Route 2. A cooperative luncheon will be enjoyed at the noon hour. The project of the session is to be time and energy management in the home.

Mother-Daughter Fete Is Planned By Church Class

Plans for a Mother-Daughter banquet to be held at 6:30 p. m. May 9 in First Methodist church were made when Mrs. Marion's Sunday School class met in the home of Mrs. Glen Hines of Park St.

Miss Benadine Yates opened the meeting with devotionals. The business session was conducted by Mrs. Clark McFarland, president, who appointed banquet committees as follows:

Reservations: Mrs. Herbert Southward, and food, Mrs. Roger Lozier.

Program and decorating: Mrs. McFarland, Mrs. Dwight Steele, Mrs. Frank Marion, Miss Ruth Stout and Mrs. Frederick Overly.

Making of programs, Mrs. Eloise Dunkel and Mrs Olan V. Boswick, and class history, Mrs. Berman Wertman.

Mrs. Boyce Parks, Mrs. Ned Griner and Miss Wilmina Phebus were appointed as a nominating committee to prepare a slate of officers for the coming year.

Games, enjoyed during a social hour, were won by Miss Stout and Mrs. Howard J. Cook.

Refreshments were served by Mrs. Hines, Mrs. George Riggin, Mrs. Forrest Brown, Mrs. Edgar McClure and Miss Yates.

Reception Fetes Donald Goellers

Mr. and Mrs. Donald Goeller, newlyweds now residing at 587 E. Franklin St. were the honored guests at a party held in the home of Dr J. E. Goeller of Circleville Route 4.

Mrs. Goeller and Mrs Forrest Short of Circleville Route 3 were co-hostesses to approximately 40 members of the immediate families of the couple for the reception.

The honored Mrs. Goeller is the former Miss Betty Binkley of Circleville.

Berger Guild 32 Elects Officers At Party Session

Berger Hospital Guild 32 was entertained by Mrs. Willison Leist and Miss Mary McClellen in the Pickaway Arms.

A perfect attendance of members was noted at the event. Election of officers was held during a short business session.

Mrs. George Hartman gave the report of a nominating committee, which was approved as follows:

Mrs. Edward Blum, chairman; Mrs. Robert Wills, contact chairman, and secretary-treasurer, Miss Ollie Sockrider.

Contests were enjoyed during a social hour, with Mrs. Frank Turner and Mrs. Maggie Morris being declared winners. Decorations on the refreshment tables were in keeping with a St. Patrick's Day theme.

Shirley Mason Is Capped At Rites At Mt. Carmel

Miss Shirley Ann Mason, daughter of Mr. and Mrs. Henry Mason of Pleasant St., was among a class of student nurses of Mt. Carmel Hospital, Columbus, who were invested with Cap and Cape at a ceremony held in St. Joseph's Cathedral.

Bishop Michael J. Ready presided at the services. The capping address was given by the Rev. Fr. James McEwan, chaplain of Ohio State University. A choir of student nurses presented several numbers during the event.

A total of 15 relatives and friends of Miss Mason, including her parents, were present from Circleville for the ceremony, which closed a period of pre-clinical study.

They also attended a reception held in the Nurses Home at 127 S. Davies Ave., following the service.

Price Dropoff Trimming Fear Of Inflation

Cotton, Grains, Hogs Dip To Offset Climb By Varied Metals

NEW YORK (AP)—Price weakness in recent weeks in many commodities—chiefly those that are the raw materials for future meals—is helping today to allay fears of more inflation.

These fears have been expressed rather widely of late. And, interestingly enough, they have been based on the price rise in certain other commodities — chiefly the metals that are the raw materials for future industrial products—and on the general anticipation of another round of rising wage rates.

Copper, lead, zinc, aluminum prices have risen. And so have the prices of some steel products and of iron ore and steel scrap.

Many causes are given. Strikes cut the supply of copper. The U.S. government strategic stockpile moved in to bolster the price of lead and zinc. Surprising demand, here and abroad, for steel, aluminum and copper pushed prices higher. Costs of producing, fabricating and sitributing metal products continues to creep higher. Purchasing agents reversed themselves and started building up inventories once more.

All of this has led to speculation as to whether another go-round on the wage-price spiral in industry may be in the making.

But other commodities took the downward trail in February—thus sustaining the belief of some in a "traditional February break."

Cotton, many of the grains, and especially hogs in the livestock group, eased sharply on both the futures and spot cash markets.

Housewives have had long training by now in realizing that a level doesn't show up quickly at the store, and that when and if it does the price drop is likely to be much smaller than the break in the price of the raw commodity.

The cost of turning raw commodities into processed and packaged foods or clothing, and of distributing it around the land, waters down the benefit of commodity price drops.

What the people who produce commodities and those who process and distribute them are wondering just now is this: Is the drop in prices in the last few weeks just a fairly common seasonal break? Or is it actually the resumption of a general decline in commodity prices?

The history of commodity prices is briefly this: With the outbreak of fighting in Korea, commodities started to soar. Rubber and tin—which are produced in the Far East where strife with Communists could cut supply lines—were especially subject to inflation. But most other commodities started for the stratosphere, too.

Prices in general topped off early in 1951. A decline set in. This is also traitional after a war scare. Most of the Korean price rise was erased by 1953.

Then came a curious leveling off of most commodity prices around the world. This price stability in commodities has been given part of the credit for keeping the turndown in industrial activity in late 1953 and early 1954 from becoming too serious.

Much of the stability in commodity prices was traced to government intervention—here many commodity prices are actively supported by Washington. Other countries try the same thing with the commodities we import.

But in recent weeks some of the supposedly price - supported commodities have been selling on the open market below the support level. This was grain or cotton which producers hadn't put under government loan.

And now some are asking if the price decline that started in 1951, only to be halted two years later, may be resuming—as part of a general post-World War II price drop long predicted.

Bus Line Hints Slash In Service

LORAIN (AP)—Because it's losing money and couldn't afford $9,000 for new license plates, the Employes Transit Lines, Inc., yesterday announced it may stop service between Lorain, Elyria and Amherst effective March 31.

Council recently refused the bus line's request to boost student fares from 8 to 10 cents.

Heroic Deed—A Hot Potato

NEW YORK (AP)—The surprise capture of the Remagen bridge across the Rhine 10 years ago is now accepted as one of the stunning feats in military history.

But when it actually happened it is hard to say who was dismayed most by it, the German enemy or some of the top Allied strategists.

At an anniversary reunion this week President Eisenhower honored 12 heroes who were among the first to cross and seize the bridge. Warmly he assured them that their action typified "the dash, the ingenuity, the readiness at the first opportunity that characterizes the American soldier."

But diplomatically he refrained from mentioning that this sudden battlefield prize became for a few days quite a hot potato at his own wartime headWhat to do with the bridge?

Some military strategists, like wives at housecleaning time, hate to change their tidy plans, no matter for what reason. That is why the unexpected capture of the Remagen bridge upset and even annoyed some Allied chieftains.

Here was the situation in early 1945:

Nobody expected to breach the ancient barrier on the Rhine except as a result of a mighty effort. A big plan had been laid to make the crossing in Field Marshal Montgomery's sector.

Most British (and some American) advisers to Eisenhower at SHAEF were pressing him to mass the Allied strength behind Montgomery in a single big march across Germany.

But Gen. Omar Nelson Bradley and other American field commanders favored another plan. Bradley himself wanted also to cross the Rhine with his group, swing north, link up with Montgomery and thus pocket the Ruhr, Germanys industrial heart.

So the issue stood, still undecided, on March 7. Then doughboys and tankmen of the 9th changed the picture. Traveling so swiftly they actually had gone beyond their road maps, they arrived at the Rhine. Startled German engineers, led by a major, frantically tried to destroy the Ludendorff railway bridge. Two explosions weakened the structure. But before they could complete the job, American gunfire drove them off. The Yanks raced to the far side of the Rhine.

Should the small American spearhead have seized the bridge on its own initiative? One officer, who knew of the impending big crossing planned farther north by SHAEF, confessed later his first, momentary reaction to the news his men had seized a bridge intact was this:

"What did the boys go and do that for? Now we'll all be in trouble."

A high operations officer from SHAEF was present when Bradley, highly delighted, heard the news. When this officer minimized the importance of the bridge's capture, saying it didn't fit into the Montgomery plan, Bradley indignantly demanded:

"What the hell do you want us to do—pull back and blow it up?"

Eisenhower himself saw the military possibilities at once and ordered the bridgehead strengthened immediately. Later, overriding his SHAEF staff exponents of "the Big Plan," he sided with Bradley and others who had favored a double pincers attack across the Rhine. In his memoirs Eisenhower credits the Remagen bridge seizure with shortening the war.

Thus did a relative handful of troops, men with the courage and enterprise to seize a golden moment, change history.

Today many of the survivors have been honored with medals. Equal honor is owed to the memory of dozens of American Army engineers, who repaired the bridge under shellfire for 10 previous days and lost their lives when it collapsed into the Rhine.

No medal went to the German major who had been ordered to blow up the bridge, and didn't quite succeed. There is no possible excuse in the German Army for failing to blow a bridge across the Rhine.

He was tried and shot, and it didn't take very long. I cannot escape a feeling of regret at the German major's penalty. Fate put him in the wrong place at the wrong time, and he paid a high price for some bad battlefield luck. He left, I believe, a family.

"When the aerials are down, and your spirit is covered with snows of cynicisms and the ice of pessimism, then you are grown old, even at twenty, but as long as your aerials are up, to catch waves of optimism, there is hope you may die young at eighty."

Among his poems, I found this one entitled "Death":

"I am the key that parts the gates of Fame,
I am the clock that covers cowering shame!
I am the goal that limits every race,
I am the storm-tossed spirit's resting place—
The messenger of sure and swift relief!
Received with wailings, tears and speechless grief,
The friend of those that have no friend but me!
I break all chains and set all captives free—
I am the cloud that shrouds the course you've run!
An instant veil upon the work you've done!
I am the brooding hush that follows strife,
The waking from a dream that man calls life."

Cadillac

Acting on a 20-Year-Old Decision!

Let's suppose it was a couple of decades ago when a young lad, with his book strap over his shoulder and his lunch basket under his arm, started slowly down a dusty road that led to a country schoolhouse.

But his walk was short that day. For a big, handsome Cadillac—with its smiling driver traveling in the lad's direction—stopped and gave him a "lift."

And as he stood there on the schoolhouse lawn and watched the big car roll off into the distance, he made a decision. He decided that, some day, he would own a Cadillac.

And here you see him, his dream come true—taking the keys to a new 1955 Cadillac!

* * *

As a Cadillac dealer, we've been privileged many times to help make such a dream come true. And it never ceases to be a thrill.

But we do feel, in all sincerity, that many motorists —not realizing the Cadillac car is *practical* as well as *wonderful*—wait too long to make the move.

The lowest-priced Cadillac, for example, actually costs less than twelve different models of other makes. Its economy of operation is far beyond anything you could logically anticipate from a car of Cadillac's size and luxury. And at the time of resale, a Cadillac traditionally returns a greater share of its owner's investment than any other car in the land.

If, like the gentleman in the picture above, you have been looking forward to a Cadillac of your own—you should give careful consideration to these remarkable Cadillac facts.

It is entirely possible that the time for *your* Cadillac has come—and, as we said, it is always a pleasure to help make such a dream come true.

Better come in and see us today.

FARM NEWS and VIEWS

By R. S. SWENSON, County Agent

Cattle Tours: The annual Spring beef cattle feeders tour in Pickaway County has been set for Friday, March 25, by the committee. Plans are to visit the same feed lots as were visited December 3. Stops will be made at the following farms: Mace and Defenbaugh, Graves and Weldon, Floyd Drummond and Harold Mace and Bennett.

Following luncheon, the afternoon discussion will center around the feeding of Stilbesterol to beef cattle.

Watch for more details next week.

Fayette County: Beef feeders are invited to the annual Fayette County beef cattle tour on Thursday, March 17. More specific information can be had by contacting the Fayette County farm extension office in Washington C. H.

Swine Improvement: We have just received the first list of swine breeders who have had litters that have recently met the prescribed standards for official certification under the Ohio Swine Improvement Program at the swine evaluation station in Columbus.

In order to receive this recognition, a litter of pigs intended for breeding purposes must:

1. Be eligible for registration.
2. Be free of inherited defects.
3. Make recommended standards for good litter weights.
4. A pair of pigs, if fed at the swine evaluation station, must gain efficiently on less than 370 lbs. feed per 100 lbs. of gain.
5. A pair of pigs, when slaughtered must yield meat-type carcasses.
6. The pair of pigs slaughtered must weight at least 200 lbs. in no more than 180 days.

The certification indicates that the litter has inherited the capacity to do well under good management since all pigs are fed the same simple swine ration.

The list of breeders is not for publication, however, a swine breeder may see the list at our office.

Statistics Again: If you are an average Pickaway County farmer, you live on a farm of 184.3 acres, having a value of $28,746. You are 50.8 years of age and you sell $7,561.96 worth of farm products annually. The chances are 3 to 1 that your farm is located on a paved road about 6 miles from a convenient trading center.

These statistics were revealed recently by W. H. Andrews and L. H. Snow, rural sociologists at the Ohio Agricultural Experiment Station. They resulted from an analytical study by the station researchers on the comparative trends in population and agricultural data in Ohio as based on the last federal census in 1950:

Following the trend of the times, 17 percent of Pickaway County farmers work 100 days or more off the farm, an increase of 7.7 percent over 1940. And 33.4 percent of Pickaway County farm operators are tenants.

The census shows that 24.8 percent of Pickaway farmers sold $10,000 or more in farm products. This is a ranking of 3rd in the state.

The Ohio Station previously reported that increased mechanization and other factors are causing an increase in acreage of the average farm.

This amounted to 8.7 percent between 1940 and 1950. A total of 7.4 percent of the farms are under 10 acres; 16.1 percent are under 30 acres; while 4.86 percent are farms of 500 acres or more.

In the educational picture, Pickaway County farm folk 25 years of age or over have nine median years of schooling completed. (A median is that point at which there are the same number of persons classified both above and below a certain figure.) The median for the state in this classification is 8.8.

Pickaway County ranks 49th in the number of rural 16 and 17 year old children enrolled in school with a percentage of 80.4. This is 1 percent above the state-wide average.

Only 9.7 percent of rural Pickaway residents are 65 years of age compared with a state-wide average of nearly 10 percent. Among persons 20 to 24 years old, there are 124.5 males per 100 females, while the state as a whole shows a ratio of 119 to 100.

The influence of industry during the decade between the two federal census periods is shown by an increase of 12.3 percent in the number of Pickaway County residents working in non-farm occupations. 69.3 percent are now employed in some type of industry other than agriculture. The percentage for the state is 92.

Soil Conservation District: The 1954 Annual Report of the Pickaway County Soil Conservation District listed the following practices applied in 1954:

Pasture planting, 175 acres; tree planting, 17 acres; hedgerow planting, 335 rods; farm drainage, 2,647 acres; open drains, 3 miles; tile drains, 10,327 rods; terracing, .1 mile; diversion construction, 1.0 mile; pond construction, 21; waterway development, 9 acres; drop inlet construction, 9; drop spillway construction, 2, and field re-organization, 28,457 lineal feet.

The district is governed by a board of five supervisors who serve without pay. Several days during the year are spent conducting the affairs of the district.

Soil Conservation Service technicians are "loaned" to the district for technical work.

The board of supervisors are: Paul Peck, New Holland, chairman; Russell Wardell, Williamsport, vice chairman; Dr. Wells Wilson, Circleville, secretary; Winfred Bidwell, Williamsport, treasurer, and Ralph E. May, Circleville, member. Assisting the district with technical work are: Donald Archer, farm planner, and Richard Weber, conservation aide.

Farmers and landowners who desire assistance with any phase of conservation farming should make application for assistance to the board of supervisors. Applications are available at the Soil Conservation Service office in the Farm Bureau Building, or at the Pickaway County Extension Office.

Farmer's Share: The farmer's share of the consumer's dollar has dropped from 47 cents in 1952 to 42 cents in 1954. Farm prices dropped to 86 percent of parity in December, the lowest since March 1941.

Prices received by farmers are only 24 percent below the all time high (February 1951), but prices paid by farmers are only 4 percent below the all time high of May 1952. The parity ratio itself is down 30 percent from the all time high of 123 percent in October 1946.

FARM NEWS and VIEWS

By R. S. SWENSON, County Agent

Cattle Tours: The annual Spring beef cattle feeders tour in Pickaway County has been set for Friday, March 25, by the committee. Plans are to visit the same feed lots as were visited December 3. Stops will be made at the following farms: Mace and Defenbaugh, Graves and Weldon, Floyd Drummond and Harold Mace and Bennett.

Following luncheon, the afternoon discussion will center around the feeding of Stilbesterol to beef cattle.

Watch for more details next week.

Fayette County: Beef feeders are invited to the annual Fayette County beef cattle tour on Thursday, March 17. More specific information can be had by contacting the Fayette County farm extension office in Washington C. H.

Swine Improvement: We have just received the first list of swine breeders who have had litters that have recently met the prescribed standards for official certification under the Ohio Swine Improvement Program at the swine evaluation station in Columbus.

In order to receive this recognition, a litter of pigs intended for breeding purposes must:

1. Be eligible for registration.
2. Be free of inherited defects,
3. Make recommended standards for good litter weights.
4. A pair of pigs, if fed at the swine evaluation station, must gain efficiently on less than 370 lbs. feed per 100 lbs. of gain,
5. A pair of pigs, when slaughtered must yield meat-type carcasses.
6. The pair of pigs slaughtered must weight at least 200 lbs. in no more than 180 days.

The certification indicates that the litter has inherited the capacity to do well under good management since all pigs are fed the same simple swine ration.

The list of breeders is not for publication, however, a swine breeder may see the list at our office.

Statistics Again: If you are an average Pickaway County farmer, you live on a farm of 184.3 acres, having a value of $28,746. You are 50.8 years of age and you sell $7,561.96 worth of farm products annually. The chances are 3 to 1 that your farm is located on a paved road about 6 miles from a convenient trading center.

These statistics were revealed recently by W. H. Andrews and L. H. Snow, rural sociologists at the Ohio Agricultural Experiment Station. They resulted from an analytical study by the station researchers on the comparative trends in population and agricultural data in Ohio as based on the last federal census in 1950;

Following the trend of the times, 17 percent of Pickaway County farmers work 100 days or more off the farm, an increase of 7.7 percent over 1940. And 33.4 percent of Pickaway County farm operators are tenants.

The census shows that 24.8 percent of Pickaway farmers sold $10,000 or more in farm products. This is a ranking of 3rd in the state.

The Ohio Station previously reported that increased mechanization and other factors are causing an increase in acreage of the average farm.

This amounted to 8.7 percent between 1940 and 1950. A total of 7.4 percent of the farms are under 10 acres; 16.1 percent are under 30 acres; while 4.86 percent are farms of 500 acres or more.

In the educational picture, Pickaway County farm folk 25 years of age or over have nine median years of schooling completed. (A median is that point at which there are the same number of persons classified both above and below a certain figure.) The median for the state in this classification is 8.8.

Pickaway County ranks 49th in the number of rural 16 and 17 year old children enrolled in school with a percentage of 80.4. This is 1 percent above the state-wide average.

Only 9.7 percent of rural Pickaway residents are 65 years of age compared with a state-wide average of nearly 10 percent. Among persons 20 to 24 years old, there are 124.5 males per 100 females, while the state as a whole shows a ratio of 119 to 100.

The influence of industry during the decade between the two federal census periods is shown by an increase of 12.3 percent in the number of Pickaway County residents working in non-farm occupations. 69.3 percent are now employed in some type of industry other than agriculture. The percentage for the state is 92.

Soil Conservation District: The 1954 Annual Report of the Pickaway County Soil Conservation District listed the following practices applied in 1954:

Pasture planting, 175 acres; tree planting, 17 acres; hedgerow planting, 335 rods; farm drainage, 2,647 acres; open drains, 3 miles; tile drains, 10,327 rods; terracing, .1 mile; diversion construction, 1.0 mile; pond construction, 21; waterway development, 9 acres; drop inlet construction, 9; drop spillway construction, 2, and field re-organization, 28,457 lineal feet.

Farmers and landowners who desire assistance with any phase of conservation farming should make application for assistance to the board of supervisors. Applications are available at the **Soil Conservation Service office in the Farm Bureau Building, or at the Pickaway County Extension Office.**

First Spring Training Tilts Booked Today

Florida And Arizona To See Major League Teams In '55 Debut

By THE ASSOCIATED PRESS

With opening day only a month away, 14 major league teams move into the Grapefruit and Cactus League phase of baseball's spring training today.

Seven exhibition games are on order, including one after-dinner affair between Brooklyn and Milwaukee at Miami. Five other openers are scheduled in Florida: New York Yankees vs. St. Louis Cardinals; Washington Senators vs. Boston Red Sox; Cincinnati Redlegs vs. Chicago White Sox; Detroit Tigers vs. Philadelphia Phillies and Kansas City A's vs. Pittsburgh Pirates.

In the three-team Cactus League, the American League champion Cleveland Indians play the Chicago Cubs at Tucson, Ariz. The world champion New York Giants cool their spikes until tomorrow when they launch their exhibition schedule where they left off in October—AGAINST THE Indians.

Baltimore, which switched training bases from Arizona to Florida this year, is also idle. The Orioles open with Cincinnati Tomorrow.

Some managers will start "experimental" lineups for the inaugurals but most pilots are leading with their aces.

Casey Stengel, starting his seventh season at the Yankee helm, wants a fast look-see at his Baltimore import Bullet Bob Turley. Turley, who came to the Yanks in that big winter deal, will pitch the first three innings against rookie Larry Jackson of the Cardinals.

Managers Chuck Dressen of Washington and Pinky Higgins of Boston are going with a couple of fastballing right-handers, Bob Porterfield and Frank Sullivan. Yearlings Al Schroll and Al Curtis will follow the 6-7 Sullivan to the mound for Boston.

Three rookies will toil for Detroit as Bucky Harris takes charge of the Tigers for the first time. Opposing them for the Phillies will be the big guy himself, Robin Roberts.

Bob Garver, 19-8 with Denver in 1954, has been given the first three-inning job for Pittsburgh by Fred Haney. Lou Boudreau, another of the managers with new teams, will counter with Marion Fricano, Carl Duser and Bill Oster.

Towering Gene Conley has drawn the starting assignment for Milwaukee and rookie Ed Roebuck, with a highly touted fast ball, for Brooklyn.

Mike Garcia is Al Lopez' choice to start things off for Cleveland against rookie Joe Stanka for Stan Hack's Cubs.

Virgil Trucks (19-12) will be the first of three White Sox pitchers for Marty Marion. Art Fowler (12-10) has the nod for Birdie Tebbetts' Redlegs.

Chisox Due To Get Look At Redlegs

TAMPA, Fla. (AP)—The Chicago White Sox may get a look today at exactly the same Cincinnati Redleg lineup the Chicago Cubs will see when the Cubs and the Reds open the National League season at Cincinnati April 11.

That applies even to the starting pitcher.

Art Fowler, the 31-year-old sophomore right-hander, is scheduled to start for the Reds in the opening spring training exhibition game against the White Sox and, as of now, he's a good bet to be Cincinnati's season opening hurler.

Barring any deals during the next month, the rest of the lineup Manager Birdie Tebbetts starts today also is expected to be the same as that on April 11.

After Fowler finishes his brief stint today, Tebbetts plans to use right hander Corky Valentine and southpaw Bill Werle.

The mention of possible deals between now and April 11 still is a prime one. There have been rumors that the Reds are seeking Junior Gilliam from the Brooklyn Dodgers or holdout Frank Thomas from the Pittsburgh Pirates.

The angling that General Manager Gabe Paul has been doing for Thomas brought this second-hand comment from Manager Eddie Stanky of the St. Louis Cardinals: "Is Gabe Paul trying to corral all of the league's power hitters?"

The Reds already have Gus Bell, Ted Kluszewski, Jim Greengrass and Ray Jablonski.

Ohio Basketball Tourneys Setting Up Regional Berths

COLUMBUS, Ohio (AP) — Ohio names the first of its high school basketball regional tournament qualifiers tonight.

But the three qualifiers, to be named in a trio of Class A district contests at Kent, don't know where they're going. The northeastern sector will have two four-team regional meets this year, but the sites haven't been selected.

Fighting for the regional spots will be Broadman (18-4) vs Canton Timken, Cleveland Glenville vs Canton McKinley (18-2), and Poland (22-1) vs Akron South (15-2).

Only one Class A game was played last night. Martins Ferry defeated New Philadelphia, 67-53, at Martins Ferry to reach Friday's finale against Steubenville for a northeastern regional spot.

The New Philadelphia loss cut the starting Class A field of 308 down to 43 teams, with only 16 emerging for next week's regionals.

The Class B field of 748 was slashed to 45 in last night's far-flung combat, and plenty of action in both divisions is on tap tonight. Among tonight's features is state champion Hamilton vs Cincinnati Purcell, a game which might halt the hopes of the Big Blue in the lose-and-out series.

Big surprise in Wednesday's Class B set was the elimination of Flushing, which had won 22 of 23. Baltic ran its record to 22-6 with a 71-68 victory over Flushing—a loss which ousted high - scoring Carter Howell of Flushing from contention.

The other Class B hot-shots continued to move along. Lockland Wayne, always a threat in Class B, won its 22nd against alone loss as it reached the Cincinnati finals with a 72-59 conquest of Indian Hill. Bowersville jumped to a 25-1 record at Xenia with a 64-53 win over Martinsville. Blue Creek made it 24-1 at Celina with a 74-65 victory over Rugged Lima St. Rose, and Rio Grande has a 22-1 record after beating Murray City, 73-54, at Athens.

The team emerging from the southwestern regional at Cincinnati has been the team to beat in the Class A sector of the state meet for years.

The district favorities to gain that regional are Springfield Public from the Troy meet, Portsmouth from Athens, Dayton Dunbar from Dayton and Cincinnati Purcell from Cincinnati. But, with favorites being batted out of the running in a series of upsets all along the line, all four could fall by the wayside as darkhorses take over the regional spots.

Don Schlundt Leaves String Of 9 Marks

CHICAGO (AP)—Don Schlundt, Indiana's towering center, has bowed out of collegiate basketball competition leaving a trail of nine Big Ten records.

Schlundt, aided by wartime eligibility as a freshman, saw action in four varsity seasons. Final conference statistics credit him with these marks:

A new single game free throw record of 25; a single game total-point record of 47; making the most free throw attempts in one game, 30; averaging the most free throws per game for a season, 11.2, and scoring the most points in a college career, 1,451.

He previously held records for the highest scoring average per season, 27.1; the best season field goal average, .504; best one game free throw average, 14 out of 14 for 1.000; and most free throw attempts per game for a season, 13.8.

Schlundt matched his previous scoring high of 47 points in his closing performance against Ohio State last Saturday. He handily took the Big Ten scoring crown with 369 points and a 26.3 average.

Schlundt's four-year scoring total possibly never will be topped in the Big Ten. Even his three-year tally—which will become the target of future sharpshooters — will be hard to beat. In three years he hit for 1,082 points.

Bowling Green Hires Grid Aide

BOWLING GREEN (AP) — Bo Schembechler, a former Barberton High School and Miami University football star, will join the Bowling Green State University football staff this week.

Doyt Perry, the new Bowling Green head coach, said Schembechler had resigned as line coach and head baseball coach at Presbyterian College, Clinton, S. C., and would report immediately. Schembechler was a tackle on the 1949-50 Miami teams.

Lopez Reports His Lineup Not Fully Set

TUCSON, Ariz. (AP)—There is a mistaken idea, says Manager Al Lopez, that the American League champion Cleveland Indians will stand pat on their 1954 outfit.

"We're not set like a lot of people think," he explained as the Indians met the Chicago Cubs today in the first of their exhibition games. "There are several positions yet to be decided. There are several young fellows to check."

Newcomers given strong chances include catcher Hank Noiles, first baseman Joe Altobelli, outfielder Rocco Colavito and, of course, left-handed pitcher Herb Score. All four spent 1954 with Indianapolis of the American Assn.

Lopez would like a strong left-handed pitcher to go with right-handers Bob Lemon, Early Wynn, Art Houtteman and Mike Garcia on the front line. Score might fill the bill, but Don Mossi, an outstanding southpaw reliefer last season, would like that starting assignment. Rookie Hank Aguirre, up from Reading, Pa., is getting attention and veteran lefty Bill Wight, who played for San Diego last season, isn't counted out. Veteran right - hander Bob Feller counts on another good season with spot assignments.

At first base Vic Wertz is No. 1 as expected but Dale Mitchell, previously an outfidlder, makes a bid along with Altobelli.

Al Rosen at third and George Stfickland at shortstop appear secure. The same is true of Bobby Avila at second when he signs.

Clues Scarce In Slaying Of OSU Student

COLUMBUS (AP)—Police today reported slim leads in Tuesday's early morning slaying of Don Keyes, 24, while on duty at a service station.

They sought the drivers of two cars reported seen in the area at the time Keyes was wounded in the head by a shotgun blast.

Police also sought to establish the identity of a man seen using a telephone at the rear of the station about that time.

Investigators yesterday released Robert Stevens, 17, after he took a lie detector test in connection with the holdup-killing.

They said Stevens, who lives near the service station, had nothing to do with the crime.

Funeral services were scheduled tomorrow for Keyes, an Ohio State University student who worked parttime at the station. He was married and had two children.

The Checker Oil Co., Keyes' employer, yesterday offered $500 reward for information leading to the arrest and conviction of the killer. A Columbus funeral director, Robert Feil, added $50 to the reward money.

First Spring Training Tilts Booked Today

Florida And Arizona To See Major League Teams In '55 Debut

By THE ASSOCIATED PRESS

With opening day only a month away, 14 major league teams move into the Grapefruit and Cactus League phase of baseball's spring training today.

Seven exhibition games are on order, including one after-dinner affair between Brooklyn and Milwaukee at Miami. Five other openers are scheduled in Florida: New York Yankees vs. St. Louis Cardinals; Washington Senators vs. Boston Red Sox; Cincinnati Redlegs vs. Chicago White Sox; Detroit Tigers vs. Philadelphia Phillies and Kansas City A's vs. Pittsburgh Pirates.

In the three-team Cactus League, the American League champion Cleveland Indians play the Chicago Cubs at Tucson, Ariz. The world champion New York Giants cool their spikes until tomorrow when they launch their exhibition schedule where they left off in October—AGAINST THE Indians.

Baltimore, which switched training bases from Arizona to Florida this year, is also idle. The Orioles open with Cincinnati Tomorrow.

Some managers will start "experimental" lineups for the inaugurals but most pilots are leading with their aces.

Casey Stengel, starting his seventh season at the Yankee helm, wants a fast look-see at his Baltimore import Bullet Bob Turley. Turley, who came to the Yanks in that big winter deal, will pitch the first three innings against rookie Larry Jackson of the Cardinals.

Managers Chuck Dressen of Washington and Pinky Higgins of Boston are going with a couple of fastballing right-handers, Bob Porterfield and Frank Sullivan. Yearlings Al Schroll and Al Curtis will follow the 6-7 Sullivan to the mound for Boston.

Three rookies will toil for Detroit as Bucky Harris takes charge of the Tigers for the first time. Opposing them for the Phillies will be the big guy himself, Robin Roberts.

Bob Garver, 19-8 with Denver in 1954, has been given the first three-inning job for Pittsburgh by Fred Haney. Lou Boudreau, another of the managers with new teams, will counter with Marion Fricano, Carl Duser and Bill Oster.

Towering Gene Conley has drawn the starting assignment for Milwaukee and rookie Ed Roebuck, with a highly touted fast ball, for Brooklyn.

Mike Garcia is Al Lopez' choice to start things off for Cleveland against rookie Joe Stanka for Stan Hack's Cubs.

Virgil Trucks (19-12) will be the first of three White Sox pitchers for Marty Marion. Art Fowler (12-10) has the nod for Birdie Tebbetts' Redlegs.

Chisox Due To Get Look At Redlegs

TAMPA, Fla. (AP)—The Chicago White Sox may get a look today at exactly the same Cincinnati Redleg lineup the Chicago Cubs will see when the Cubs and the Reds open the National League season at Cincinnati April 11.

That applies even to the starting pitcher.

Art Fowler, the 31-year-old sophomore right-hander, is scheduled to start for the Reds in the opening spring training exhibition game against the White Sox and, as of now, he's a good bet to be Cincinnati's season opening hurler.

Barring any deals during the next month, the rest of the lineup Manager Birdie Tebbetts starts today also is expected to be the same as that on April 11.

After Fowler finishes his brief stint today, Tebbetts plans to use right hander Corky Valentine and southpaw Bill Werle.

The mention of possible deals between now and April 11 still is a prime one. There have been rumors that the Reds are seeking Junior Gilliam from the Brooklyn Dodgers or holdout Frank Thomas from the Pittsburgh Pirates.

The angling that General Manager Gabe Paul has been doing for Thomas brought this second-hand comment from Manager Eddie Stanky of the St. Louis Cardinals: "Is Gabe Paul trying to corral all of the league's power hitters?"

The Reds already have Gus Bell, Ted Kluszewski, Jim Greengrass and Ray Jablonski.

Ohio Basketball Tourneys Setting Up Regional Berths

COLUMBUS, Ohio (AP) — Ohio names the first of its high school basketball regional tournament qualifiers tonight.

But the three qualifiers, to be named in a trio of Class A district contests at Kent, don't know where they're going. The northeastern sector will have two four-team regional meets this year, but the sites haven't been selected.

Fighting for the regional spots will be Broadman (18-4) vs Canton Timken, Cleveland Glenville vs Canton McKinley (18-2), and Poland (22-1) vs Akron South (15-2).

Only one Class A game was played last night. Martins Ferry defeated New Philadelphia, 67-53, at Martins Ferry to reach Friday's finale against Steubenville for a northeastern regional spot.

The New Philadelphia loss cut the starting Class A field of 308 down to 43 teams, with only 16 emerging for next week's regionals.

The Class B field of 748 was slashed to 45 in last night's far-flung combat, and plenty of action in both divisions is on tap tonight. Among tonight's features is state champion Hamilton vs Cincinnati Purcell, a game which might halt the hopes of the Big Blue in the lose-and-out series.

Big surprise in Wednesday's Class B set was the elimination of Flushing, which had won 22 of 23. Baltic ran its record to 22-6 with a 71-68 victory over Flushing—a loss which ousted high - scoring Carter Howell of Flushing from contention.

The other Class B hot-shots continued to move along. Lockland Wayne, always a threat in Class B, won its 22nd against alone loss as it reached the Cincinnati finals with a 72-59 conquest of Indian Hill. Bowersville jumped to a 25-1 record at Xenia with a 64-53 win over Martinsville. Blue Creek made it 24-1 at Celina with a 74-65 victory over Rugged Lima St. Rose, and Rio Grande has a 22-1 record after beating Murray City, 73-54, at Athens.

The team emerging from the southwestern regional at Cincinnati has been the team to beat in the Class A sector of the state meet for years.

The district favorities to gain that regional are Springfield Public from the Troy meet, Portsmouth from Athens, Dayton Dunbar from Dayton and Cincinnati Purcell from Cincinnati. But, with favorites being batted out of the running in a series of upsets all along the line, all four could fall by the wayside as darkhorses take over the regional spots.

Don Schlundt Leaves String Of 9 Marks

CHICAGO (AP)—Don Schlundt, Indiana's towering center, has bowed out of collegiate basketball competition leaving a trail of nine Big Ten records.

Schlundt, aided by wartime eligibility as a freshman, saw action in four varsity seasons. Final conference statistics credit him with these marks:

A new single game free throw record of 25; a single game total-point record of 47; making the most free throw attempts in one game, 30; averaging the most free throws per game for a season, 11.2, and scoring the most points in a college career, 1,451.

He previously held records for the highest scoring average per season, 27.1; the best season field goal average, .504; best one game free throw average, 14 out of 14 for 1.000; and most free throw attempts per game for a season, 13.8.

Schlundt matched his previous scoring high of 47 points in his closing performance against Ohio State last Saturday. He handily took the Big Ten scoring crown with 369 points and a 26.3 average.

Schlundt's four-year scoring total possibly never will be topped in the Big Ten. Even his three-year tally—which will become the target of future sharpshooters — will be hard to beat. In three years he hit for 1,082 points.

Bowling Green Hires Grid Aide

BOWLING GREEN (AP) — Bo Schembechler, a former Barberton High School and Miami University football star, will join the Bowling Green State University football staff this week.

Doyt Perry, the new Bowling Green head coach, said Schembechler had resigned as line coach and head baseball coach at Presbyterian College, Clinton, S. C., and would report immediately. Schembechler was a tackle on the 1949-50 Miami teams.

Lopez Reports His Lineup Not Fully Set

TUCSON, Ariz. (AP)—There is a mistaken idea, says Manager Al Lopez, that the American League champion Cleveland Indians will stand pat on their 1954 outfit.

"We're not set like a lot of people think," he explained as the Indians met the Chicago Cubs today in the first of their exhibition games. "There are several positions yet to be decided. There are several young fellows to check."

Newcomers given strong chances include catcher Hank Noiles, first baseman Joe Altobelli, outfielder Rocco Colavito and, of course, left-handed pitcher Herb Score. All four spent 1954 with Indianapolis of the American Assn.

Lopez would like a strong left-handed pitcher to go with right-handers Bob Lemon, Early Wynn, Art Houtteman and Mike Garcia on the front line. Score might fill the bill, but Don Mossi, an outstanding southpaw reliefer last season, would like that starting assignment. Rookie Hank Aguirre, up from Reading, Pa., is getting attention and veteran lefty Bill Wight, who played for San Diego last season, isn't counted out. Veteran right - hander Bob Feller counts on another good season with spot assignments.

At first base Vic Wertz is No. 1 as expected but Dale Mitchell, previously an outfidlder, makes a bid along with Altobelli.

Al Rosen at third and George Stfickland at shortstop appear secure. The same is true of Bobby Avila at second when he signs.

Clues Scarce In Slaying Of OSU Student

COLUMBUS (AP)—Police today reported slim leads in Tuesday's early morning slaying of Don Keyes, 24, while on duty at a service station.

They sought the drivers of two cars reported seen in the area at the time Keyes was wounded in the head by a shotgun blast.

Police also sought to establish the identity of a man seen using a telephone at the rear of the station about that time.

Investigators yesterday released Robert Stevens, 17, after he took a lie detector test in connection with the holdup-killing.

They said Stevens, who lives near the service station, had nothing to do with the crime.

Funeral services were scheduled tomorrow for Keyes, an Ohio State University student who worked parttime at the station. He was married and had two children.

The Checker Oil Co., Keyes' employer, yesterday offered $500 reward for information leading to the arrest and conviction of the killer. A Columbus funeral director, Robert Feil, added $50 to the reward money.

Card of Thanks

Words can not express our thanks to the many friends, neighbors and relatives who remembered us and were so kind after the death of our husband and father, the late Earl Lutz. We wish to take this opportunity to thank all those who helped in anyway to make our loss a little easier to bear. We also wish to thank Dr. Kerns for his kindness, the Defenbaugh funeral home and all those who sent flowers. All was greatly appreciated.

The Lutz Family

They say time heals all sorrow
And helps us to forget
But time so far has only proved
How much we miss him yet
God gave us grace to face it
And courage to bear the blow
But what it meant to lose him
No one but God will know.

BURGESS AND HAYES

Pan-Am Chiefs Eye 1959 Site

MEXICO CITY (AP)—Competition in the Pan-American Games is still four days off, but the bustle of athletes in training and the behind-the-scene maneuvering of the high brass kept things humming today.

The major item on the agenda of the brass (the Pan-American Congress) was selection of the site for the 1959 games.

Cleveland's invitation to hold the affair in the United States for the first time appeared to have strong support. The congress may favor invitations from Caracas, Santiago, Rio de Janeiro or Guatemala City.

Rookie Booked For Tribe Test

TUCSON, Ariz. (AP) — Shortstop Billy Harrell, a former basketball player at Siena College, Memphis, is the only rookie in the Cleveland Indians' lineup Manager Al Lopez has picked for today's exhibition opener against the Chicago Cubs.

Harrell, 26 and 190 pounds, broke in with Cedar Rapids in 1952 as an outfielder. He hit .307 at Indianapolis last year.

Mike Garcia, southpaw Hank Aguirre and Bob Hooper are slated to hurl for the Tribe against Chicago's Bubba Church, Joe Stanka and Don Elston.

Card of Thanks

Words can not express our thanks to the many friends, neighbors and relatives who remembered us and were so kind after the death of our husband and father, the late Earl Lutz. We wish to take this opportunity to thank all those who helped in anyway to make our loss a little easier to bear. We also wish to thank Dr. Kerns for his kindness, the Defenbaugh funeral home and all those who sent flowers. All was greatly appreciated.

The Lutz Family

They say time heals all sorrow
And helps us to forget
But time so far has only proved
How much we miss him yet
God gave us grace to face it
And courage to bear the blow
But what it meant to lose him
No one but God will know.

BURGESS AND HAYES

Pan-Am Chiefs Eye 1959 Site

MEXICO CITY (AP)—Competition in the Pan-American Games is still four days off, but the bustle of athletes in training and the behind-the-scene maneuvering of the high brass kept things humming today.

The major item on the agenda of the brass (the Pan-American Congress) was selection of the site for the 1959 games.

Cleveland's invitation to hold the affair in the United States for the first time appeared to have strong support. The congress may favor invitations from Caracas, Santiago, Rio de Janeiro or Guatemala City.

Rookie Booked For Tribe Test

TUCSON, Ariz. (AP) — Shortstop Billy Harrell, a former basketball player at Siena College, Memphis, is the only rookie in the Cleveland Indians' lineup Manager Al Lopez has picked for today's exhibition opener against the Chicago Cubs.

Harrell, 26 and 190 pounds, broke in with Cedar Rapids in 1952 as an outfielder. He hit .307 at Indianapolis last year.

Mike Garcia, southpaw Hank Aguirre and Bob Hooper are slated to hurl for the Tribe against Chicago's Bubba Church, Joe Stanka and Don Elston.

Princeton Wins Ivy Title, Must Now Meet LaSalle

The Associated Press

Princeton rooters celebrated the Tigers' Ivy League basketball championship today and the automatic berth in the NCAA Tournament that goes with it. But their jubilation may be short-lived for tomorrow Princeton plays defending champion LaSalle in the regional playoffs at Philadelphia.

Princeton put on a second-half surge to crush Columbia 86-69 last night in a league playoff at Rutgers in New Brunswick, N.J., ending the closest Ivy race in the league's 53-year-old history.

The Tigers, Columbia and Penn finished the season in an unprecedented triple tie, each with a 10-4 record. Columbia disposed of Penn in the first playoff game Monday.

Princeton's Hal Haabestad and John Devoe scored 28 and 22 points with superb jump shooting. Chet Forte, Columbia's 5-9 sophomore, kept the Lions in the game with a 19-point output before the Tigers' defenders stopped him cold.

The Tigers, who received a first-round bye in the NCAA Tournament, have won seven of their last eight starts. LaSalle, which downed West Virginia 95-61 Tuesday, has won 10 straight.

Canisius and Villanova clash in the other NCAA regional game at Philadelphia. Double-headers also will be held at Evanston, Ill.; Manhattan, Kan.; and Corvallis, Ore., tomorrow and Saturday.

Eight teams were eliminated in first-round games Tuesday and the field now numbers 16. The regional playoffs will trim the field to four for the semifinal and finals at Kansas City March 18-19.

The remainder of Friday's second-round schedule: at Evanston, Marquette faces Kentucky and Penn State meets Iowa; at Manhattan, Bradley squares off against Southern Methodist and Colorado clashes with Tulsa; at Corvallis, Seattle plays Oregon State and San Francisco, the nation's No. 1 team, tangles with Utah.

The winners of Friday's games meet Saturday.

Macias Wins Bantam Title With TKO

SAN FRANCISCO (AP)—Raul Macias of Mexico, who took more punishment from his fervent fans after it was over than he did from Thailand's Chamrern Songkitrat while he was winning it, is the world bantamweight boxing champion today as far as the National Boxing Assn. is concerned.

Macias won the title, which the state of California firmly refuses to recognize, with a blistering two-fisted assault that caused Referee Fred Apostoli to stop the one-sided scrap at 2:38 of the 11th round last night at the Cow Palace.

A flock of screaming Mexicans clambered into the ring after it was over. Police were unable to stop the mad scramble. Macias, "Little Mouse" to his compatriots, was swallowed up in the blustering throng, to emerge moments later perched on shoulders.

Anyone who thought bantamweights lacked punching power received as rude a jolt as the Thailander last night. Macias, using a lightning left hook and jab mixed with a bruising right, had Songkitrat on the floor four times, twice in the sixth round and twice more in the 11th.

Macias, unbeaten in 12 pro fights, was in full charge all the way. He lost only one round, the first, on one of the cards. Apostoli had it scored 60-50 through the 10 full rounds, Judge Jack Downey 63½ to 46½ and Judge Eddie James 61½ to 48½.

Veteran Pro Ace Gets Coach Berth

WOOSTER (AP)—Mel Riebe, who graduated last month from the College of Wooster after 13 years as a professional athlete, has been named head football and basketball coach at the new Waynedale High School.

Rieve played professional baseball and basketball, played college golf, coached swimming and football, and will coach the Wooster baseball team this spring.

Waynedale High is a consolidation of schools at Apple Creek and Fredericksburg, near here.

Big Ten Awaits NCAA Grid Plan

CHICAGO (AP)—The Big Ten is expected to decide Monday whether to go along with the 1955 National Collegiate Athletic Assn. football television program or take steps to televise its own games.

Defiance of the NCAA plan would bring possible expulsion of the Big Ten from the organization.

The conference's television committee yesterday studied the NCAA program that was drawn up at a meeting in New York Monday and Tuesday. The plan will be announced by the NCAA Monday.

The Big Ten has been steadfast in demands for free negotiations for TV football sponsors and a regional setup that would provide for appearance of a team twice.

New Wildlife Map Readied By State

COLUMBUS (AP)—The Ohio Division of Wildlife has received its supply of 1955 lake and stream maps.

The maps, popular with Ohio fishermen and hunters, show all streams and lakes and their relation to state highways on one side and the location of state public hunting areas on the reverse. The maps, selling for ten cents each, can be secured from the wildlife division, 1500 Dublin Road, Columbus 12, Ohio.

Princeton Wins Ivy Title, Must Now Meet LaSalle

The Associated Press

Princeton rooters celebrated the Tigers' Ivy League basketball championship today and the automatic berth in the NCAA Tournament that goes with it. But their jubilation may be short-lived for tomorrow Princeton plays defending champion LaSalle in the regional playoffs at Philadelphia.

Princeton put on a second-half surge to crush Columbia 86-69 last night in a league playoff at Rutgers in New Brunswick, N.J., ending the closest Ivy race in the league's 53-year-old history.

The Tigers, Columbia and Penn finished the season in an unprecedented triple tie, each with a 10-4 record. Columbia disposed of Penn in the first playoff game Monday.

Princeton's Hal Haabestad and John Devoe scored 28 and 22 points with superb jump shooting. Chet Forte, Columbia's 5-9 sophomore, kept the Lions in the game with a 19-point output before the Tigers' defenders stopped him cold.

The Tigers, who received a first-round bye in the NCAA Tournament, have won seven of their last eight starts. LaSalle, which downed West Virginia 95-61 Tuesday, has won 10 straight.

Canisius and Villanova clash in the other NCAA regional game at Philadelphia. Double-headers also will be held at Evanston, Ill.; Manhattan, Kan.; and Corvallis, Ore., tomorrow and Saturday.

Eight teams were eliminated in first-round games Tuesday and the field now numbers 16. The regional playoffs will trim the field to four for the semifinal and finals at Kansas City March 18-19.

The remainder of Friday's second-round schedule: at Evanston, Marquette faces Kentucky and Penn State meets Iowa; at Manhattan, Bradley squares off against Southern Methodist and Colorado clashes with Tulsa; at Corvallis, Seattle plays Oregon State and San Francisco, the nation's No. 1 team, tangles with Utah.

The winners of Friday's games meet Saturday.

Macias Wins Bantam Title With TKO

SAN FRANCISCO (AP)—Raul Macias of Mexico, who took more punishment from his fervent fans after it was over than he did from Thailand's Chamrern Songkitrat while he was winning it, is the world bantamweight boxing champion today as far as the National Boxing Assn. is concerned.

Macias won the title, which the state of California firmly refuses to recognize, with a blistering two-fisted assault that caused Referee Fred Apostoli to stop the one-sided scrap at 2:38 of the 11th round last night at the Cow Palace.

A flock of screaming Mexicans clambered into the ring after it was over. Police were unable to stop the mad scramble. Macias, "Little Mouse" to his compatriots, was swallowed up in the blustering throng, to emerge moments later perched on shoulders.

Anyone who thought bantamweights lacked punching power received as rude a jolt as the Thailander last night. Macias, using a lightning left hook and jab mixed with a bruising right, had Songkitrat on the floor four times, twice in the sixth round and twice more in the 11th.

Macias, unbeaten in 12 pro fights, was in full charge all the way. He lost only one round, the first, on one of the cards. Apostoli had it scored 60-50 through the 10 full rounds, Judge Jack Downey 63½ to 46½ and Judge Eddie James 61½ to 48½.

Veteran Pro Ace Gets Coach Berth

WOOSTER (AP)—Mel Riebe, who graduated last month from the College of Wooster after 13 years as a professional athlete, has been named head football and basketball coach at the new Waynedale High School.

Rieve played professional baseball and basketball, played college golf, coached swimming and football, and will coach the Wooster baseball team this spring.

Waynedale High is a consolidation of schools at Apple Creek and Fredericksburg, near here.

Big Ten Awaits NCAA Grid Plan

CHICAGO (AP)—The Big Ten is expected to decide Monday whether to go along with the 1955 National Collegiate Athletic Assn. football television program or take steps to televise its own games.

Defiance of the NCAA plan would bring possible expulsion of the Big Ten from the organization.

The conference's television committee yesterday studied the NCAA program that was drawn up at a meeting in New York Monday and Tuesday. The plan will be announced by the NCAA Monday.

The Big Ten has been steadfast in demands for free negotiations for TV football sponsors and a regional setup that would provide for appearance of a team twice.

New Wildlife Map Readied By State

COLUMBUS (AP)—The Ohio Division of Wildlife has received its supply of 1955 lake and stream maps.

The maps, popular with Ohio fishermen and hunters, show all streams and lakes and their relation to state highways on one side and the location of state public hunting areas on the reverse. The maps, selling for ten cents each, can be secured from the wildlife division, 1500 Dublin Road, Columbus 12, Ohio.

New River Bridge And By-Pass May Be Realities In 1956

Governor Asks Both Projects Be Given Funds

Program Included As Part Of Report To Ohio Legislature

Two highly important construction projects may become realities in 1956 if the Ohio legislature accepts the recommendations of a report by Gov. Frank J. Lausche.

One will be a new Scioto River Bridge, spanning the river just west of Circleville. The other will be the controversial by-pass, also on the western edge of the city. .

The recommendation for a new bridge was included in Gov. Lausche's recent State Highway Construction Council approved program for 1956-57 submitted to the Ohio law makers. Total cost has been estimated at $450,000 with the bridge construction aimed at 1956.

The 0.65 mile bridge has been a sore spot with local motorists and others who use the east-west Route 22 or Route 56, the two of which are combined at that point. At the present time only one-way traffic is permitted on the antiquated structure.

* * *

TRAFFIC LIGHTS at either end of the bridge stop the movement of traffic going one way while cars from the opposite direction proceed. Load limits are still reduced 50 per cent.

Age of the bridge is estimated at more than 70 years. Numerous jokes about the exact year it was built runs along the lines of "George Washington crossed it."

Several other roadway improvements for Pickaway County are also in the program, including the much talked about by-pass. Estimated cost for the proposed by-pass, set tentatively for 1956, is $4,000,000.

The proposal calls for a four-lane highway for a distance of nearly 5 1-2 miles north from a point 0.3 miles south of Circleville. The limited acess project will include two railroad grade separations and two drainage structures.

However, the by-pass is listed as having a "C" priority, which is below the urgent stage.

* * *

ANOTHER IMPROVEMENT project recommended for Pickaway County is the further expansion of the four laning of Route 23. This program, also set for 1956, embraces two new lanes north from a spot 1.42 miles north of the Pickaway-Ross County line.

This project will cost an estimated $2,500,000. It too will be limited acess and will contain three new structures.

Route 62, which cuts through the northwest part of the county, is also on the list for intended improvements. One is proposed for 1956, the other for 1957.

From a point 1.0 miles south of the Pickaway Franklin County line, north 2.3 miles into Franklin County, Route 62 is to be widened. Given an "A" priority, this 1956 project is estimated at $482,000.

Two bridges in Franklin County and one in Pickaway are to be worked on. The one in Pickaway is to be rebuilt, according to the plan.

IN 1957, the proposal is to widen another portion of Route 62 in Pickaway County-1.7 miles of it from where it enters into the county from Mt. Sterling.

The remainder of the widening of that route—the major portion—includes 12.8 miles in Fayette County and 1.4 miles in Madison County, except in Mt. Sterling. Estimated cost of the entire project is $1,500,000.

The four-laning of Route 23 is already under way in Pickaway County. The Holderman Construction Co., of Cincinnati, has the contracts.

The first stretch is 12.27 miles long, extending from north from S. Bloomfield to 1.95 miles south of Columbus. Total cost will reeach $2,626,330 and is to be completed next Dec. 31.

The second section continues south (from the above point) to 3.2 miles north of Circleville to S. Bloomfield. Also scheduled for completion on Dec. 31, this 4.62-mile project is costing $1,213,000.

* * *

ALSO UNDER WAY at the present time is the construction of a new bridge on the western edge of Williamsport. The bridge, 0.31 mile long, is costing $214,660 and is to be finished on Aug. 31.

No other future construction programs were listed for Pickaway County.

Dem Governors To Hold Parley

NEW YORK (AP) — Democratic National Chairman Paul M. Butler says he will call a conference of all Democratic governors this spring and hopes to give them "more importance in the party structure."

Butler set no date for the meeting but said he would make a further announcement about it tomorrow in Washington.

The conference would be set up, Butler said, to give the governors a chance to discuss problems with congressional leaders, exchange ideas on state affairs and develop a "close working alliance with the national committee."

23 Are Indicted In Housing Probe

PITTSBURGH (AP) — A federal grand jury has indicted 23 salesmen and contractors from six states for fraud in use of Federal Housing Administration loans.

The indictments charge the salesmen and contractors pushed through applications for small FHA home improvement and repair loans.

The FBI said the average loan was about $2,000 and the total involving 75 loans made by the defendants was about $150,000.

The FBI said the indictments climaxed a six-month probe.

Grand Jury Shuns Church Bingo Case

COLUMBUS (AP)—Three Columbus men were freed of gambling charges yesterday when a Franklin County grand jury refused to indict them for running a church-sponsored bingo game.

They are James C. Hite, 37; Jack Jule, 26, and W. J. Bentz, 32, parish members of our Lady of Peace Church here.

New River Bridge And By-Pass May Be Realities In 1956

Governor Asks Both Projects Be Given Funds
